

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Sharp  
DOCKET NO.: 15-32897.001-R-1  
PARCEL NO.: 17-22-110-063-0000

The parties of record before the Property Tax Appeal Board are John Sharp, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$22,494  
**IMPR.:** \$43,940  
**TOTAL:** \$66,434

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a three-story townhome of masonry exterior construction with 1,993 square feet of living area. The dwelling is approximately 13 years old. Features of the home include a partial basement with finished area, central air conditioning and a 2-car garage. The property has a 1,956 square foot site and is located in Chicago, South Chicago Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument the appellant submitted information on five equity comparables located within different neighborhood codes than the subject property. The comparables were improved with three-story townhomes of masonry exterior construction that contained either 1,903 or 1,975 square feet of living area. The dwellings are

from 16 or 23 years old and have slab foundations. Other features had varying degrees of similarity to the subject property. The comparables had improvement assessments that ranged from \$38,576 to \$41,003 or from \$19.53 to \$21.52 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$41,376 or \$20.76 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$70,736. The subject property has an improvement assessment of \$48,242 or \$24.21 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same neighborhood code, same block and/or street as the subject property. The comparables were improved with three-story townhomes of masonry exterior construction with either 1,993 or 2,041 square feet of living area. The dwellings are each 13 years old and have partial basements with finished areas. The comparables' other features are identical when compared to the subject property. The comparables had improvement assessments that ranged from \$41,904 to \$45,090 or from \$21.03 to \$22.62 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the evidence in the record supports a reduction to the subject's assessment.

The parties submitted nine suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to their different neighborhood codes and inferior slab foundations when compared to the subject's neighborhood code and partial finished basement.

The Board finds the best evidence of assessment equity to be the board of review comparables which are located within the same neighborhood code, same block and/or street as the subject property. These comparables received greater weight because they are also identical to the subject in design, exterior construction, age, foundation and features. In addition, comparables #1, #2, and #3 are identical to the subject's dwelling size. These comparables had improvement assessments ranging from \$41,904 to \$45,090 or from \$21.03 to \$22.62 per square foot of living area. The subject's improvement assessment of \$48,242 or \$24.21 per square foot of living area is above the best comparables contained in this record. Based on this record, the Board finds a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
