

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Alice Anne Herbert
DOCKET NO.: 15-33033.001-R-1
PARCEL NO.: 14-32-225-022-0000

The parties of record before the Property Tax Appeal Board are Alice Anne Herbert, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$18,900
IMPR.: \$74,003
TOTAL: \$92,903

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family dwelling of masonry exterior construction with 3,474 square feet of living area. The dwelling is approximately 127 years old and has a full basement with an apartment. The property has a 2,100 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-11 apartment building under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument the appellant submitted information on five equity comparables, two of which are located within different assessment neighborhood codes than the subject property. The comparables were improved with two, two-story multi-family dwellings and three, three-story multi-family dwellings of frame or masonry

exterior construction containing from 3,347 to 3,444 square feet of living area. The comparables range in age from 122 to 137 years old. Three comparables have partial or full unfinished basements and two comparables have two-car garages. The comparables have improvement assessments ranging from \$59,175 to \$70,758 or from \$17.68 to \$20.78 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$66,822 or \$19.23 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$92,903. The subject property has an improvement assessment of \$74,003 or \$21.30 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same assessment neighborhood code and .25 of a mile from the subject property. The comparables were improved with two-story multi-family dwellings of masonry exterior construction containing from 2,940 to 3,144 square feet of living area. The comparables range in age from 124 to 129 years old and have full basements, two of which have apartments. Two comparables have central air conditioning and one comparable has a 2.5-car garage. The comparables have improvement assessments ranging from \$77,100 to \$98,102 or from \$24.70 to \$31.20 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparables along with the board of review comparable #2 due to their different assessment neighborhood codes, dissimilar three-story designs, lack of basements and/or superior garages when compared to the subject property.

The Board finds the best evidence of assessment equity to be the board of review comparables #1, #3 and #4. Although these comparables are slightly smaller in dwelling size, they are most similar to the subject in location, design, exterior construction, age, foundation and features. In addition, comparable #4 is identical to the subject's age. The comparables had improvement assessments ranging from \$77,100 to \$79,124 or from \$24.70 to \$26.37 per square foot of living area. The subject's improvement assessment of \$74,003 or \$21.30 per square foot of living area is below the range of the most similar comparables contained in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
