

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Jansen
DOCKET NO.: 15-33035.001-R-1
PARCEL NO.: 17-31-300-033-0000

The parties of record before the Property Tax Appeal Board are John Jansen, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$12,811
IMPR.: \$28,222
TOTAL: \$41,033

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family dwelling of masonry exterior construction with 5,661 square feet of living area. The dwelling is approximately 51 years old and has a full basement with an apartment. The property has a 7,536 square foot site and is located in Chicago, South Chicago Township, Cook County. The subject is classified as a class 2-11 apartment building property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within different assessment neighborhood codes than the subject property. The comparables were improved with two, two-story multi-family dwellings and three, three-story multi-family dwellings of frame or masonry exterior construction containing from 5,066 to 5,782 square feet

of living area. The comparables range in age from 122 to 127 years old. Four comparables have full basements, three of which have finished areas. Other features had varying degrees of similarity when compared to the subject property. The comparables had improvement assessments ranging from \$9,401 to \$21,006 or from \$1.78 to \$3.99 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$16,773 or \$2.96 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$41,033. The subject property has an improvement assessment of \$28,222 or \$4.99 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same assessment neighborhood code, same block and/or subdivision area as the subject property. The comparables were improved with two-story multi-family dwellings of masonry exterior construction containing from 2,438 to 3,055 square feet of living area. The comparables range in age from 52 to 54 years old and have full basements with finished areas. Other features had varying degrees of similarity when compared to the subject property. The comparables had improvement assessments ranging from \$23,505 to \$24,973 or from \$7.94 to \$10.24 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration, none of which are truly similar to the subject property. The appellant's comparables differed from the subject with their different assessment neighborhood codes, dissimilar three-story designs, considerably older ages and/or lack of a basement when compared to the subject property. The board of review comparables had considerably smaller dwelling sizes when compared to the subject property.

The Board finds the best evidence of assessment equity to be the board of review comparables. Although these comparables are smaller in dwelling size, they are most similar to the subject in location, design, exterior construction, age, foundation and features. These comparables had improvement assessments that ranged from \$23,505 to \$24,973 or from \$7.94 to \$10.24 per square foot of living area. The subject's improvement assessment of \$28,222 or \$4.99 per square foot of living area is below the range of the most similar comparables contained in this record on a per-square-foot basis. The subject is above the range with its total improvement assessment which appears to be justified given its considerably larger dwelling size. Accepted real estate valuation theory provides that all factors being equal, as the size of the property increases, the

per unit value decreases. In contrast, as the size of a property decreases, the per unit value increases. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
