

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Daniela Stoichitoiu  
DOCKET NO.: 15-33036.001-R-1  
PARCEL NO.: 17-21-211-344-0000

The parties of record before the Property Tax Appeal Board are Daniela Stoichitoiu, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$21,517  
**IMPR.:** \$63,288  
**TOTAL:** \$84,805

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a three-story dwelling of masonry exterior construction with 2,488 square feet of living area. The dwelling is approximately 18 years old. Features of the home include a concrete slab foundation, central air conditioning, a fireplace and a one-car garage. The property has a 2,265 square foot site and is located in Chicago, South Chicago Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument the appellant submitted information on five equity comparables, two of which are located within the same assessment neighborhood code as the subject property. The comparables were improved with one, two-story and four, three-story dwellings of masonry or frame and masonry exterior construction that contain from

2,376 to 2,637 square feet of living area. The dwellings range in age from 7 to 16 years old. Four comparables have partial or full basements, two of which have finished areas. Other features had varying degrees of similarity when compared to the subject. The comparables had improvement assessments that ranged from \$43,280 to \$64,606 or from \$17.69 to \$24.50 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$50,232 or \$20.19 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$84,805. The subject property has an improvement assessment of \$63,288 or \$25.44 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the subject's same assessment neighborhood code and .25 of a mile from the subject property. The comparables were improved with three-story dwellings of masonry exterior construction that contain either 2,156 or 2,308 square feet of living area. The dwellings are either 16 or 19 years old. Three comparables have partial unfinished basements. Other features had varying degrees of similarity when compared to the subject. The comparables had improvement assessments that ranged from \$63,318 to \$66,398 or from \$28.77 to \$30.04 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board finds neither party submitted comparables that were particularly similar to the subject, except for the board of review comparable #1. The appellant's five comparables along with three of the board of review comparables had differences in foundations when compared to the subject property. In addition, three of the appellant's comparables differed from the subject's assessment neighborhood code and/or design. These comparables had improvement assessments that ranged from \$43,280 to \$66,398 or from \$17.69 to \$30.04 per square foot of living area. The subject's improvement assessment of \$63,288 or \$25.44 per square foot of living area is within the range established by the comparables contained in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
