

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Augusta Property S&B, LLC
DOCKET NO.: 15-33065.001-R-1
PARCEL NO.: 17-06-313-026-0000

The parties of record before the Property Tax Appeal Board are Augusta Property S&B, LLC, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,250
IMPR.: \$55,621
TOTAL: \$66,871

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family dwelling of masonry exterior construction with 4,243 square feet of living area. The dwelling is approximately 120 years old and has a full basement with an apartment. The property has a 3,750 square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 apartment building under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within the same assessment neighborhood code as the subject property. The comparables were improved with three-story multi-family dwellings of masonry exterior construction containing from 4,089 to 4,416 square feet of living area. The comparables range in age from 104 to 135

years old. Features had varying degrees of similarity when compared to the subject. The comparables had improvement assessments ranging from \$47,039 to \$54,227 or from \$11.50 to \$12.41 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$50,669 or \$11.94 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$66,871. The subject property has an improvement assessment of \$55,621 or \$13.11 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same assessment neighborhood code, same street and/or .25 of a mile from the subject property. The comparables were improved with two-story multi-family dwellings of masonry exterior construction containing from 3,552 to 4,308 square feet of living area. The comparables range in age from 120 to 127 years old. Features had varying degrees of similarity when compared to the subject. The comparables had improvement assessments ranging from \$51,818 to \$58,589 or from \$13.60 to \$14.94 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the board of review comparables. Although three comparables are smaller in dwelling size, these comparables are most similar to the subject in location, design, exterior construction, age, and features. In addition, the board of review comparable #3 is identical to the subject's age. These comparables had improvement assessments ranging from \$51,818 to \$58,589 or from \$13.60 to \$14.94 per square foot of living area. The subject's improvement assessment of \$55,621 or \$13.11 per square foot of living area is within the range established by the best comparables contained in this record with its total improvement assessment and slightly below on a per-square-foot basis. The Board gave less weight to the appellant's comparables due to their dissimilar three-story designs unlike the subject property. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
