

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Estate Of James R. Petrozzini  
DOCKET NO.: 15-33097.001-R-1  
PARCEL NO.: 13-36-206-007-0000

The parties of record before the Property Tax Appeal Board are Estate Of James R. Petrozzini, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$6,131  
**IMPR.:** \$36,108  
**TOTAL:** \$42,239

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a three-story multi-family dwelling of masonry construction with an unfinished basement. The dwelling is 117 years old and contains 4,185 square feet of living area. The property is located in neighborhood code 30 in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables described as 2 or 3-story dwellings of frame or masonry construction. The comparables have features with varying degrees of similarity when compared to the subject. The dwellings are 114 or 115 years old and range in size from 4,074 to 4,236 square feet of living area. The comparables are class 2-11 buildings located in the same neighborhood code 30 as the subject, one on the same street as the

subject. They have improvement assessments ranging from \$27,838 to \$30,234 or from \$6.67 to \$7.14 per square foot of living area. Based on this evidence the appellant requested the total assessment be reduced to \$35,999.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$42,239. The subject property has an improvement assessment of \$36,108 or \$8.63 per square foot of living area. In support of this argument the board of review submitted information on four equity comparables described as 3-story dwellings of masonry construction. The comparables have features with varying degrees of similarity when compared to the subject. The dwellings range in age from 117 to 132 years old and range in size from 3,714 to 4,185 square feet of living area. The comparables are class 2-11 buildings located in the same neighborhood code 30 as the subject, two within the same block as the subject. They have improvement assessments ranging from \$32,289 to \$40,541 or from \$8.69 to \$9.89 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #1, #3, #4 and #5 based on their 2-story design and slab foundations as compared to the subject's 3-story design with an unfinished basement. The Board also gave less weight to board of review comparable #2 based on its central air conditioning. Despite the presence of garages, the Board finds the best evidence of assessment equity in the record to be appellant's comparable #2 and board of review comparables #1, #3 and #4. These comparables were most similar to the subject in location, age, style, dwelling size and most features. They had improvement assessments ranging from \$6.83 to \$9.89 per square foot of living area. The subject's improvement assessment of \$8.63 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
