

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Borys Antonovych
DOCKET NO.: 15-33102.001-R-1
PARCEL NO.: 17-06-329-025-0000

The parties of record before the Property Tax Appeal Board are Borys Antonovych, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,243
IMPR.: \$62,548
TOTAL: \$71,791

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story mixed-use commercial/residential building of masonry construction with a partial unfinished basement. The building is 137 years old and contains 6,048 square feet of building area. It features central air conditioning. The property is located in neighborhood code 52 in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on five equity comparables described as 3-story mixed-use commercial/residential buildings of masonry construction. The comparables have features with varying degrees of similarity when compared to the subject. The buildings range in age from 13 to 137 years old and range in size from 5,952 to 6,299 square feet of building area.

The comparables are class 2-12 buildings located in neighborhood code 52. Two are on the same street and in the same block as the subject. They have improvement assessments ranging from \$53,783 to \$61,059 or from \$8.77 to \$9.95 per square foot of building area. Based on this evidence the appellant requested the total assessment be reduced to \$63,892.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$71,791. The subject property has an improvement assessment of \$62,548 or \$10.34 per square foot of building area. In support of this argument the board of review submitted information on four equity comparables described as 3-story mixed-use commercial/residential buildings of masonry construction. The comparables have features with varying degrees of similarity when compared to the subject. The buildings range in age from 109 to 134 years old and range in size from 5,886 to 6,654 square feet of building area. The comparables are class 2-12 buildings located in the same neighborhood code 52 as the subject, all on the same street and within one block of the subject. They have improvement assessments ranging from \$61,183 to \$72,646 or from \$10.34 to \$11.30 per square foot of building area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparable #4 based on its newer age and board of review comparable #4 based on its larger building size as compared to the subject. Despite some dissimilarities with the subject regarding features, the Board finds the best evidence of assessment equity in the record to be appellant's comparables #1, #2, #3 and #5 and board of review comparables #1, #2 and #3. These comparables were most similar to the subject in location, age, style, exterior construction and building size. They had improvement assessments ranging from \$8.77 to \$11.30 per square foot of building area. The subject's improvement assessment of \$10.34 per square foot of building area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
