

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Richard Bennet
DOCKET NO.: 15-33144.001-R-1
PARCEL NO.: 14-32-127-039-0000

The parties of record before the Property Tax Appeal Board are Richard Bennet, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$28,125
IMPR.: \$146,025
TOTAL: \$174,150

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story dwelling of masonry exterior construction with 3,540 square feet of living area. The dwelling is approximately 28 years old. Features of the home include a full finished basement, central air conditioning, two fireplaces and a two-car garage. The property has a 3,125-square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument the appellant submitted information on five equity comparables located in the same neighborhood code as the subject. The comparables were improved with two, two-story dwellings and three, three-story dwellings of masonry exterior construction. The dwellings are from 13 to 30 years old. One comparable has

a finished basement, each comparable has central air conditioning, one or two fireplaces and a two-car garage. Two comparables have attic space with living area. The dwellings range in size from 3,494 to 3,546 square feet of living area and have improvement assessments ranging from \$120,375 to \$141,026 or from \$34.00 to \$40.36 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$133,939 or \$37.84 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$174,150. The subject property has an improvement assessment of \$146,025 or \$41.25 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on three equity comparables located in the same neighborhood code as the subject property. The comparables are improved with three-story style masonry dwellings that range in size from 2,880 to 4,282 square feet of living area. The dwellings are either 26 or 28 years old. Two comparables have a full basement with one comparable having finished area, each comparable has central air conditioning, one or three fireplaces and a one-car or two-car garage. The comparables have improvement assessments ranging from \$122,221 to \$213,873 or \$42.44 or \$49.95 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted eight suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #1 through #4 along with the board of review's comparable #1 based on their lack of a basement and/or finished attic when compared to the subject's full finished basement and no attic.

The Board finds the best evidence of assessment equity to be the remaining comparables. These comparables have varying degrees of similarity in location, design, dwelling size, age and features. These comparables had improvement assessments ranging from \$40.36 to \$49.95 per square foot of living area. The subject's improvement assessment of \$41.25 per square foot of living area falls within the range of the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
