

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jeff Pryor
DOCKET NO.: 15-34061.001-R-1
PARCEL NO.: 13-03-123-011-0000

The parties of record before the Property Tax Appeal Board are Jeff Pryor, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$7,840
IMPR.: \$59,545
TOTAL: \$67,385

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 2,851 square feet of living area. The dwelling is approximately 86 years old. Features of the home include a partial unfinished basement, two fireplaces and a one-car garage. The property has a 5,600 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument the appellant submitted information on five equity comparables one of which is located within the same neighborhood code as the subject property. The comparables were improved with two-story dwellings of masonry or frame and masonry exterior construction that ranged in size from 2,718 to 3,067 square feet of

living area. The dwellings are from 67 to 96 years old. Three comparables have partial or full basements one of which has finished area. Other features had varying degrees of similarity when compared to the subject property. The comparables had improvement assessments that ranged from \$38,688 to \$58,987 or from \$14.23 to \$19.23 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$50,211 or \$17.61 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$67,385. The subject property has an improvement assessment of \$59,545 or \$20.89 per square foot of living area. In support of its contention of the correct assessment the board of review submitted information on four equity comparables located within the same neighborhood code and .25 of a mile from the subject property. The comparables were improved with two-story dwellings of frame and masonry exterior construction that ranged in size from 2,238 to 2,266 square feet of living area. The dwellings are from 74 to 80 years old and have partial or full basements three of which have finished areas. Other features had varying degrees of similarity when compared to the subject property. The comparables had improvement assessments that ranged from \$52,188 to \$57,057 or from \$23.00 to \$25.42 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration, none of which are truly similar to the subject property. The appellant's comparables differed from the subject with their different neighborhood codes, newer age, and/or lack of basements when compared to the subject property. The board of review comparables had smaller dwelling sizes when compared to the subject property.

The Board finds the best evidence of assessment equity to be the board of review comparables. Although these comparables are smaller in dwelling size, they are most similar to the subject in location, design, exterior construction, age foundation and features. These comparables had improvement assessments that ranged from \$52,188 to \$57,057 or from \$23.00 to \$25.42 per square foot of living area. The subject's improvement assessment of \$59,545 or \$20.89 per square foot of living area is below the range of the most similar comparables contained in this record on a per-square-foot basis. The subject is slightly above the range with its total improvement assessment which appears to be justified given its slightly larger dwelling size. Accepted real estate valuation theory provides that all factors being equal, as the size of the property increases, the per unit value decreases. In contrast, as the size of a property decreases, the per unit value increases.

After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
