

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Font  
DOCKET NO.: 15-34176.001-R-1  
PARCEL NO.: 16-23-317-026-0000

The parties of record before the Property Tax Appeal Board are John Font, the appellant, by Jessica Hill-Magiera, Attorney at Law in Lake Zurich; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$3,792  
**IMPR.:** \$14,713  
**TOTAL:** \$18,505

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject parcel is improved with a three-story masonry multi-family dwelling. The dwelling is 99 years old and contains 2,868 square feet of living area. It features a partial unfinished basement. The site contains 3,612 square feet of land area and is located in Chicago, West Chicago Township, Cook County. It is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on six comparable properties. They are described as three-story multi-family dwellings built between 1898 and 1921 and ranging in size from 2,622 to 3,420 square feet of living area. Four comparables feature full or partial unfinished basements and two have 2-car garages. The comparables are located in the same neighborhood code as the subject. They sold between March 2014 and April 2015 for prices ranging from \$26,500 to \$110,000 or from \$8.50 to \$38.35 per square foot of living area including land. The appellant did not report

information on classification codes, exterior construction or land sizes for the comparables. Based on this evidence, the appellant requested the total assessment be reduced to \$6,874 or a market value of approximately \$68,740 or \$23.97 per square foot of living area including land.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$18,505. The subject's assessment reflects a market value of approximately \$185,050 or \$64.52 per square foot of living area, land included.

In support of its contention of the correct assessment the board of review submitted information on four comparable sales. They are described as two or three-story class 2-11 masonry dwellings ranging in age from 10 to 144 years old. They range in size from 2,988 to 6,678 square feet of living area. The comparables feature full unfinished basements. Two have central air conditioning and one comparable features a 3-car garage. The comparables are located in the same neighborhood code as the subject on sites that range from 3,125 to 4,729 square feet of land area. The comparables sold between April and December 2015 for prices ranging from \$220,000 to \$409,000 or from \$38.93 to \$123.94 per square foot of living area including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, counsel for the appellant asserted the appellant's comparables are better than the board of review comparables.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

When market value is the basis of the appeal, site size must be considered in determining the degree of similarity of the comparables to the subject. The Board finds the appellant did not provide any information on site sizes of the comparables. The Board therefore gave less weight to the appellant's comparables. The Board also gave less weight to board of review comparables #1, #2 and #4 based on larger dwelling size, newer dwelling age and/or two-story design as compared to the subject's three-story design. The Board finds board of review comparable #3 most similar to the subject in location, style, exterior construction, age, site size, dwelling size and features. This comparable sold in August 2015 for \$220,000 or \$73.63 per square foot of living area including land. The subject's assessment reflects a market value of \$185,050 or \$64.52 per square foot of living area, including land, which is supported by this most similar comparable. Based on this record, the Board finds the appellant did not prove by a preponderance of the evidence that the subject is overvalued and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
