

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Boykin Chafin
DOCKET NO.: 15-34213.001-R-1
PARCEL NO.: 16-22-405-014-0000

The parties of record before the Property Tax Appeal Board are Boykin Chafin, the appellant, by Jessica Hill-Magiera, Attorney at Law in Lake Zurich; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$3,307
IMPR.: \$3,524
TOTAL: \$6,831

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject parcel is improved with a two-story frame multi-family dwelling on a slab foundation. The dwelling is 107 years old and contains 1,628 square feet of living area. The site contains 3,150 square feet of land area and is located in neighborhood 91 in Chicago, West Chicago Township, Cook County. It is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on eight comparable properties. They are described as two-story multi-family dwellings built between 1899 and 1911 and ranging in size from 1,672 to 1,773 square feet of living area. Two comparables feature full unfinished basements and three have one or two-car garages. The comparables are located in neighborhood code 91. They sold between February 2014 and June 2015 for prices ranging from \$15,000 to \$64,000 or from \$8.56 to \$37.43 per square foot of living area including land. The appellant did not report information

on classification codes, exterior construction or land sizes for the comparables. Based on this evidence, the appellant requested the total assessment be reduced to \$1,443 or a market value of approximately \$14,430 or \$8.86 per square foot of living area including land.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$13,563. The subject's assessment reflects a market value of approximately \$135,630 or \$83.31 per square foot of living area, land included when applying the Cook County Real Property Assessment Ordinance level of assessment for class 2 property.

In support of its contention of the correct assessment the board of review submitted information on four comparable sales. They are described as two-story class 2-11 frame or masonry dwellings ranging in age from 102 to 115 years old. They range in size from 1,716 to 1,840 square feet of living area. One comparable features a full finished basement and three are on slab foundations. Two have 1 or 2.5-car garages. The comparables are located in neighborhood code 91 on sites that range in size from 3,125 to 6,250 square feet of land area. The comparables sold between May 2013 and October 2015 for prices ranging from \$14,000 to \$72,000 or from \$7.61 to \$41.96 per square foot of living area including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, counsel for the appellant asserted the appellant's comparables are better than the board of review comparables.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the evidence in the record supports a reduction in the subject's assessment.

When market value is the basis of the appeal, site size must be considered in determining the degree of similarity of the comparables to the subject. The Board finds the appellant did not provide any information on site sizes of the comparables. The Board therefore gave less weight to the appellant's comparables. The Board also gave less weight to board of review comparables #2, #3 and #4 based on significantly larger site size, finished basement as compared to the subject's slab foundation and/or sales occurring in 2013 which are less indicative of market value as of the subject's assessment date of January 1, 2015. The Board finds board of review comparable #1 most similar to the subject in location, style, age, site size, dwelling size and features. This comparable sold in October 2015 for \$72,000 or \$41.96 per square foot of living area including land. The subject's assessment reflects a market value of \$135,630 or \$83.31 per square foot of living area, including land, which is not supported by this comparable or any of the comparables submitted by the board of review. Based on this record, the Board finds a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
