

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Paul Stellatos
DOCKET NO.: 15-34659.001-R-1
PARCEL NO.: 13-35-405-006-0000

The parties of record before the Property Tax Appeal Board are Paul Stellatos, the appellant(s), by attorney Peter D. Verros, of Verros, Lafakis & Berkshire, P.C. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds A Reduction in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$4,875
IMPR.: \$20,085
TOTAL: \$24,960

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story mixed-use building with 3,900 square feet of building area of masonry construction. The building is 119 years old. The property has a 3,750 square foot site and is located in Jefferson Township, Cook County. The subject is classified as a class 2-12 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on four comparable sales. The appellant also submitted the subject's recent income and expense information.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$37,095. The subject's assessment reflects a market value of

\$370,950 or \$95.16 per square foot of building area, including land, when applying the 2015 level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%. In support of its contention of the correct assessment the board of review submitted information on one comparable sale and four equity comparables.

Conclusion of Law

The appellant submitted documentation showing the income of the subject property. The PTAB gives the appellant's argument little weight. In Springfield Marine Bank v. Property Tax Appeal Board, 44 Ill.2d 428 (1970), the court stated:

[I]t is the value of the "tract or lot of real property" which is assessed, rather than the value of the interest presently held. . . [R]ental income may of course be a relevant factor. However, it cannot be the controlling factor, particularly where it is admittedly misleading as to the fair cash value of the property involved. . . [E]arning capacity is properly regarded as the most significant element in arriving at "fair cash value".

Many factors may prevent a property owner from realizing an income from property that accurately reflects its true earning capacity; but it is the capacity for earning income, rather than the income actually derived, which reflects "fair cash value" for taxation purposes. Id. at 431.

Actual expenses and income based on vacancy can be useful when shown that they are reflective of the market. Although the appellant's attorney made this argument, the appellant did not demonstrate through an expert in real estate valuation that the subject's actual income and expenses are reflective of the market. To demonstrate or estimate the subject's market value using income, one must establish, through the use of market data, the market rent, vacancy and collection losses, and expenses to arrive at a net operating income reflective of the market and the property's capacity for earning income. The appellant did not provide such evidence and, therefore, the PTAB gives no weight to this evidence and finds that a reduction based on market value is not warranted.

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value to be the appellant's comparable sales and the board of review's comparable sales #4. These comparables sold for prices ranging from \$47.05 to \$64.18 per square foot of building area, including land. The subject's assessment reflects a market value of \$95.11 per square foot of building area, including land, which is above the range established by the best comparable sales in this record. Based on this evidence the Board finds a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
