

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Culver
DOCKET NO.: 15-34826.001-R-1
PARCEL NO.: 13-12-412-047-0000

The parties of record before the Property Tax Appeal Board are John Culver, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,187
IMPR.: \$58,025
TOTAL: \$67,212

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story multi-family dwelling of masonry exterior construction with 4,872 square feet of living area. The dwelling is approximately 94 years old with a full unfinished basement. The property has a 4,375 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 apartment building under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables located within different neighborhood codes than the subject property. The comparables were improved with four, two-story multi-family dwellings and one, three-story multi-family dwelling of masonry exterior construction containing from 4,602 to 4,884 square feet of living area. The comparables range in age from 87 to 92 years old and have full basements, one of which has a finished area.

Other features had varying degrees of similarity when compared to the subject property. The comparables had improvement assessments ranging from \$30,623 to \$39,926 or from \$6.41 to \$8.68 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$39,740 or \$8.16 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$67,212. The subject property has an improvement assessment of \$58,025 or \$11.91 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same neighborhood code, same block and street as the subject property. The comparables were improved with three-story multi-family dwellings of masonry exterior construction containing from 4,278 to 4,842 square feet of living area. The comparables range in age from 93 to 95 years old and have full unfinished basements. Other features had varying degrees of similarity when compared to the subject property. The comparables had improvement assessments ranging from \$55,827 to \$58,573 or from \$11.97 to \$13.26 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to their different neighborhood codes, dissimilar two-story designs, and/or finished basement areas when compared to the subject property.

The Board gave greater weight and finds the best comparables to be the board of review comparables which are located within the same neighborhood code, same block and street as the subject property. In addition, these comparables are most similar to the subject in design, exterior construction, age, dwelling size, foundation and features. These comparables had improvement assessments ranging from \$55,827 to \$58,573 or from \$11.97 to \$13.26 per square foot of living area. The subject's improvement assessment of \$58,025 or \$11.91 per square foot of living area is within the range established by the best comparables contained in this record with its total improvement assessment and slightly below on a per-square-foot basis. The Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
