

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Marie Medynskyj
DOCKET NO.: 15-35019.001-R-1
PARCEL NO.: 12-11-111-024-0000

The parties of record before the Property Tax Appeal Board are Marie Medynskyj, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$6,206
IMPR.: \$55,015
TOTAL: \$61,221

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a three-story multi-family dwelling of masonry exterior construction with 6,570 square feet of living area. The dwelling is approximately 43 years old and has a concrete slab foundation. The property has a 5,642 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 apartment building under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables, one of which is located within the same neighborhood code as the subject property. The comparables were improved with four, two-story multi-family dwellings and one, three-story multi-family dwelling of masonry exterior construction containing from 6,318 to 6,646 square feet of living area. The comparables range in age from 43 to 91 years old. Four comparables have partial or full

basements, two of which have apartments. Other features had varying degrees of similarity when compared to the subject property. The comparables had improvement assessments ranging from \$43,418 to \$48,694 or from \$6.56 to \$7.71 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$47,455 or \$7.22 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$61,221. The subject property has an improvement assessment of \$55,015 or \$8.37 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on three equity comparables located within the same neighborhood code, same block and street as the subject property. The comparables were improved with three-story multi-family dwellings of masonry exterior construction containing either 6,351 or 6,570 square feet of living area. The comparables are each 43 years old and have concrete slab foundations. Other features had varying degrees of similarity when compared to the subject property. The comparables had improvement assessments ranging from \$54,266 to \$55,216 or from \$8.37 to \$8.69 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board gave greater weight and finds the best evidence of improvement assessment equity to be the board of review comparables which are located within the same neighborhood code, same block and street as the subject property. These comparables are identical to the subject in design, exterior construction, age, foundation and most features. In addition, these comparables are either identical or slightly smaller than the subject's dwelling size. These comparables had improvement assessments ranging from \$54,266 to \$55,216 or from \$8.37 to \$8.69 per square foot of living area. The subject's improvement assessment of \$55,015 or \$8.37 per square foot of living area is within the range of the best comparables contained in this record and appears to be well-supported by these comparables. The Board gave less weight to the appellant's comparables due to their location, dissimilar two-story designs, considerably older ages, and/or different foundations when compared to the subject property. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
