

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Kishore Kumar Gunda  
DOCKET NO.: 15-35725.001-R-1  
PARCEL NO.: 13-05-426-017-0000

The parties of record before the Property Tax Appeal Board are Kishore Kumar Gunda, the appellant, by attorney Stephanie Park, of Park & Longstreet, P.C. in Rolling Meadows; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$4,464  
**IMPR.:** \$22,860  
**TOTAL:** \$27,324

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story multi-family dwelling of frame exterior construction with 1,980 square feet of living area. The dwelling is approximately 92 years old. Features include a full unfinished basement and a one-car detached garage. The property has a 3,720 square foot site and is located in Chicago, Jefferson Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity and overvaluation as the bases of the appeal. In support of the inequity argument the appellant submitted information on four equity comparables located within the same neighborhood assessment code as the subject property. The comparables consist of two-story multi-family dwellings that are 92 and 93 years old. The comparables had features with varying degrees of similarity when compared to the subject. The dwellings range

in size from 1,906 to 1,980 square feet of living area and have improvement assessments ranging from \$19,021 to \$25,652 or from \$9.98 to \$13.11 per square foot of living area.

In support of the overvaluation argument, the appellant submitted four comparable sales located within the same neighborhood assessment code as the subject property. The comparables consist of two-story multi-family dwellings that range in age from 89 to 93 years old. The dwellings had features with varying degrees of similarity when compared to the subject. The dwellings range in size from 1,906 to 1,994 square feet of living area and are situated on sites ranging in size from 3,570 to 4,092 square feet of land area. The comparables sold from November 2012 to June 2014 for prices ranging from \$160,000 to \$305,000 or from \$80.89 to \$152.96 per square foot of living area including land. Based on this evidence, the appellant requested the total assessment be reduced to \$16,020.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$33,853. The subject's assessment reflects a market value of \$338,530 or \$170.97 per square foot of living area, land included, when using the level of assessments for class 2 property of 10% under the Cook County Real Property Assessment Classification Ordinance. The subject property has an improvement assessment of \$29,389 or \$14.84 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same neighborhood as the subject property. The comparables consist of two-story multi-family dwellings that are 92 years old. The comparables had varying degrees of similarity when compared to the subject. The dwellings each contain 1,804 square feet of living area and are situated on sites that each contain 3,720 square feet of land area. The comparables have improvement assessments ranging from \$27,637 to \$29,603 or from \$15.32 to \$16.41 per square foot of living area.

The board of review failed to provide any sales data in order to address the appellant's overvaluation argument.

Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, counsel for the appellant argued the board of review's comparables should be given no weight because the comparables lacked sales data.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted on this basis.

The appellant submitted four suggested comparable sales for the Board consideration. The Board gave less weight to the appellant's comparable #1 due to its November 2012 sale date, which is

less proximate in time to the January 1, 2015 assessment date. The Board finds the best evidence of market value in the record to be the appellant's comparables #2, #3 and #4. These comparables sold more proximate in time to the January 1, 2015 assessment date and were similar to the subject in location, age, dwelling design, size and other features. These comparables sold for prices ranging from \$240,000 to \$305,000 or from \$125.92 to \$152.96 per square foot of living area including land. The subject's assessment reflects an estimated market value of \$338,530 or \$170.97 per square foot of living area including land which falls above the range established by the best sales comparables in this record. Based on this record the Board finds the subject's assessment is not reflective of market value and a reduction in the subject's assessment is justified on this basis.

Based on a reduction to the subject's assessment based on overvaluation, the Board finds the subject has a revised improvement assessment of \$11.55 per square foot of living area, which is within the range established by the comparables submitted by the parties. Therefore, the Board finds a further reduction based on assessment inequity is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
