

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Pauline Schultz  
DOCKET NO.: 15-36752.001-R-1  
PARCEL NO.: 17-04-108-015-0000

The parties of record before the Property Tax Appeal Board are Pauline Schultz, the appellant, by attorney Abby L. Strauss, of Schiller Strauss & Lavin PC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$26,350  
**IMPR.:** \$69,316  
**TOTAL:** \$95,666

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property is improved with a two-story dwelling of frame construction with 2,236 square feet of living area. The dwelling is approximately 19 years old. Features of the home include a partial finished basement, central air conditioning, a fireplace and a two-car garage. The property has a 3,100 square foot site and is located in Chicago, North Chicago Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables with the same assigned neighborhood and classification codes as the subject. The comparables are improved

with two-story dwellings of frame construction.<sup>1</sup> The dwellings are either 12 or 19 years old. The comparables had features of varying degrees of similarity when compared to the subject. The appellant's grid analysis indicates the dwellings contain 2,105 or 2,668 square feet of living area, and their improvement assessments range from \$54,933 to \$66,362 or from \$20.59 to \$28.50 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$55,117 or \$24.65 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$95,666 was disclosed. The subject property has an improvement assessment of \$69,316 or \$31.00 per square foot of living area. The board of review presented descriptions and assessment information on four suggested comparable properties that were located on the same block as the subject property. The comparables are improved with two-story dwellings of frame construction. The dwellings are 19 years old and their features were identical to the subject dwelling. The board of review's grid analysis indicates each dwelling has 2,236 square feet of living area. One of the comparables has an improvement assessment of \$72,957 or \$32.77 per square foot of living area, and three comparables have improvement assessments of \$73,129 or \$32.71 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented assessment data on a total of seven suggested comparables. The Board finds that all of the comparables submitted were two-story, frame dwellings like the subject. However, the appellant's comparables #1 and #2 differed significantly from the subject in age and living area and received reduced weight in the Board's analysis. The Board finds the best evidence of assessment equity to be the appellant's comparable #3 and the comparables submitted by the board of review. The Board finds these comparables were most similar to the subject in age and living area. These comparables had improvement assessments that ranged from \$28.50 to \$32.77 per square foot of living area. The subject's improvement assessment of \$31.00 per square foot of living area falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

---

<sup>1</sup> On the grid analysis, the appellant did not provide information on the comparables' story height; however, the appellant's photographic evidence indicates the comparables are two-story in design.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
