

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Bitoy
DOCKET NO.: 15-39979.001-R-1
PARCEL NO.: 16-10-317-039-0000

The parties of record before the Property Tax Appeal Board are John Bitoy, the appellant; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$2,625
IMPR.: \$12,894
TOTAL: \$15,519

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Property Tax Appeal Board pursuant to Section 16-185 of the Property Tax Code (35 ILCS 200/16-185) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family dwelling of masonry exterior construction with 2,217 square feet of living area. The dwelling is approximately 100 years old. Features include a full unfinished basement. The property has a 2,500-square foot site and is located in Chicago, West Chicago Township, Cook County. The subject is classified as a class 2-11 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant requested the Board to accept the instant appeal as a direct appeal from the Property Tax Appeal Board's December 19, 2017 decision to reduce the subject's assessment in docket #14-34523.001-R-1. In support of this request, the appellant attached a copy of that decision and a letter dated January 17, 2018 requesting a direct appeal.

The appellant contends overvaluation as the basis of the appeal. In support of the overvaluation argument, the appellant submitted six comparable sales located within the same neighborhood

code as the subject property. The comparables consist of two-story multi-family dwellings that were built from 1903 to 1924. The dwellings have full unfinished basements. The dwellings range in size from 2,180 to 2,372 square feet of living area. The comparables sold from July 2014 to December 2015 for prices ranging from \$9,900 to \$60,000 or from \$4.17 to \$25.73 per square foot of living area including land. Based on this evidence, the appellant requested the total assessment be reduced to \$2,290.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$17,257. The subject's assessment reflects a market value of \$172,570 or \$77.84 per square foot of living area, land included, when using the level of assessments for class 2 property of 10% under the Cook County Real Property Assessment Classification Ordinance.

In support of the subject's assessment, the board of review submitted information on four comparable sales located within the same neighborhood code as the subject property. The comparables consist of two-story multi-family dwellings that range in age from 112 to 127 years old. Two of the comparables have concrete slab foundations and remaining two comparables have full unfinished basements. The dwellings range in size from 1,806 to 2,348 square feet of living area and are situated on sites that range in size from 2,250 to 3,975 square feet of land area. The comparables sold from June 2014 to January 2016 for prices ranging from \$135,000 to \$165,000 or from \$68.18 to \$88.93 per square foot of living area including land. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board gave less weight to the board of review's comparable sales #1 and #4 due to their inferior concrete slab foundation when compared to the subject's full unfinished basement. The Board finds the best evidence of market value in the record to be the appellant's comparable sales and the board of review's comparable sales #2 and #3. These properties sold proximate in time to the January 1, 2015 assessment date at issue and were similar to the subject in location, age, dwelling size, design and features. The comparables sold for prices ranging from \$9,900 to \$165,000 or from \$4.17 to \$70.27 per square foot of living area, including land. The subject's total assessment reflects a market value of \$172,570 or \$77.84 per square foot of living area including land, which falls above the range established by the comparables in this record. Based on this record the Board finds the subject's assessment is not reflective of market value and a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
