

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Mark Wilson
DOCKET NO.: 15-40103.001-R-1
PARCEL NO.: 29-19-419-049-0000

The parties of record before the Property Tax Appeal Board are Mark Wilson, the appellant, by Jessica Hill-Magiera, Attorney at Law in Lake Zurich; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$1,306
IMPR.: \$1,388
TOTAL: \$2,694

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Property Tax Appeal Board pursuant to section 16-185 of the Property Tax Code (35 ILCS 200/16-185) challenging the assessment for the 2015 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a multi-level, single-family dwelling of frame construction with 1,036 square feet of living area. The dwelling is approximately 54 years old and has a partial basement with finished area. The property has a 5,805 square foot site and is located in Markham, Thornton Township, Cook County. The subject is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on five comparable sales that were located from .08 to .30 of a mile from the subject property. The comparables were located within the subject's city and neighborhood code. The comparables were multi-level dwellings that ranged in size from 1,068 to 1,166 square feet of living area. The comparables were built from 1961 to 1968, have partial basements with finished areas, and lack garage areas, like the subject. The comparables had sale

dates ranging from March 2014 to August 2015 for prices ranging from \$21,400 to \$30,100 or from \$20.04 to \$27.36 per square foot of living area, including land.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$8,186. The subject's assessment reflects a market value of \$81,860 or \$79.02 per square foot of living area, land included, when applying the level of assessment for class 2 property under the Cook County Real Property Assessment Classification Ordinance of 10%.

In support of its contention of the correct assessment the board of review submitted information on eight comparable properties, two of which were comparables to demonstrate that the subject was being equitably assessed. Three of the comparables are located in Dolton City, unlike the subject. The board of review's comparables #2 and #5 are the same property listed as PIN #29-19-419-059-0000. The comparables were multi-level dwellings that ranged in size from 1,014 to 1,100 square feet of living area. The comparables ranged in age from 47 to 55 years old and have partial basements with finished areas. Six of the comparables have garages, unlike the subject. Six of the comparables had sale dates ranging from May 2014 to September 2015 for prices ranging from \$40,000 to \$125,000 or from \$38.31 to \$117.70 per square foot of living area, including land.

The appellant submitted a rebuttal critiquing the board of review's submission noting the differences with the board of review's comparables' location, garage area, and/or the lack of a recent sale when compared to the subject. The rebuttal evidence included a map of both parties' comparables proximate location to the subject property.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant met this burden of proof and a reduction in the subject's assessment is warranted.

The Board finds the best evidence of market value in the record was submitted by the appellant. The comparables were similar to the subject in location, style, age, dwelling size, foundation, and most features. These comparables sold proximate in time to the January 1, 2015 assessment date at issue. These comparables sold from March 2014 to August 2015 for prices ranging from \$21,400 to \$30,100 or from \$20.04 to \$27.36 per square foot of living area, including land. The subject's assessment reflects a market value of \$81,860 or \$79.02 per square foot of living area, including land, which is above the range established by the best comparable sales in this record. The Board gave less weight to the board of review's comparables #3 and #4 (PIN #: 29-19-418-049-0000 and 29-19-418-045-0000) as this evidence is not responsive to the overvaluation argument brought by the appellant. The Board also gave less weight to the board of review's remaining comparable sales due to differences from the subject in location and/or garage area.

Docket No: 15-40103.001-R-1

Based on this evidence the Board finds a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
