

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: AMH 2014-2 Borrower LLC
DOCKET NO.: 16-00684.001-R-1
PARCEL NO.: 05-06-04-404-035-0000

The parties of record before the Property Tax Appeal Board are AMH 2014-2 Borrower LLC, the appellant, by attorney Michael R. Davies, of Ryan Law LLP, in Chicago, and the Will County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Will** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$14,200
IMPR.: \$56,400
TOTAL: \$70,600

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Will County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame construction with 2,552 square feet of living area. The dwelling was constructed in 2005. Features of the home include a full basement, central air conditioning and a 504 square foot garage. The property has a 9,952 square foot site and is located in Shorewood, Troy Township, Will County.

The appellant's appeal is based on overvaluation. In support of this argument the appellant submitted limited evidence in Section IV – Recent Sale Data of the Residential Appeal petition disclosing the subject property was purchased in May 2012 from "Federal National" for a price of \$159,000. While the appellant was requested to provide additional information to complete the appeal, by letter dated November 30, 2017 by the Property Tax Appeal Board, the appeal was accepted and the board of review was simultaneously, but separately, notified of its duty to

respond to the appeal within 90 days. Based on this limited recent sale evidence, the appellant requested a reduction in the subject's assessment to reflect the 2012 purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$70,600. The subject's assessment reflects a market value of \$212,267 or \$83.18 per square foot of living area, land included, when using the 2016 three year average median level of assessment for Will County of 33.26% as determined by the Illinois Department of Revenue.

Initially in response to the appeal, the board of review requested dismissal of the appeal since the appellant failed to comply with the Property Tax Appeal Board's request for additional information. Furthermore, the township assessor noted that the appellant did not make the 2012 purchase, but rather the appellant purchased the property in December 2013 for \$216,000 as depicted in the PTAX-203 which was provided.

In support of its contention of the correct assessment, the board of review submitted information on four comparable sales identified by the township assessor improved with two-story dwellings of frame or frame and brick trim construction ranging in size from 2,444 to 2,563 square feet of living area that were located within the subject's subdivision. The dwellings were constructed between 2004 and 2007 with features that include full or partial basements, central air conditioning and a garage ranging in size from 400 to 504 square feet of building area. One comparable also has a fireplace. These properties sold from August 2014 to September 2015 for prices ranging from \$210,000 to \$298,000 or from \$82.29 to \$116.27 per square foot of living area.

Based on the foregoing evidence and argument, the board of review requested an increase in the assessment of the subject property to reflect the median sales price or a new total assessment of \$74,093 which would reflect a market value of \$222,769 or \$87.29 per square foot of living area, including land.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of market value in the record to be the comparable sales submitted by the board of review. These comparables were similar to the subject in location, style, construction, features and/or age. These properties also sold more proximate in time to the assessment date at issue than the sale of the subject reported by the appellant. The comparables sold from August 2014 to September 2015 for prices ranging from \$210,000 to \$298,000 or from \$82.29 to \$116.27 per square foot of living area, including land. The subject's assessment reflects a market value of \$212,267 or \$83.18 per square foot of living area, including land,

which is within the range established by the best comparable sales in this record both in terms of overall value and on a per-square-foot basis.

The Board gave little weight to the subject's May 2012 and/or December 2013 sales due to the fact the sales did not occur as proximate in time to the assessment date at issue of January 1, 2016 as did the comparable sales in the record. In addition, there was no evidence presented by the appellant that either sale transaction had any of the elements of an arm's length transaction as there was no indication if the property sold between related parties; there was no indication whether the property advertised or exposed on the open market prior to the sale; and/or there was no evidence whether the transaction occurred between a willing seller and a willing buyer. In fact, the information that the property was sold by "Federal National" suggests that there was duress involved in the transaction.

As to the board of review request to increase the subject's assessment based upon the median of the four recent sales, the Property Tax Appeal Board finds the subject's current improvement assessment is within the improvement assessments of the board of review comparable sales. Although the Will County Board of Review has requested an increase in the subject's total assessment to \$74,093 which would raise the estimated market value of the subject to \$222,769, this would place the subject substantially above comparables #1 and #2 presented by the board of review both in terms of market value and total assessment, despite the fact that these two comparables are nearly identical to the subject property. Moreover, except for comparable #1, the remaining three comparable properties appear to be under-valued based upon their respective assessments as compared to their recent purchase prices as displayed on the board of review's grid analysis.

On this record, the Property Tax Appeal Board finds that the subject is not overvalued and no reduction in the assessment of the subject property is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
