

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: AMH 2015-1 Borrower LLC AT
DOCKET NO.: 16-00969.001-R-1
PARCEL NO.: 23-15-04-302-021-0000

The parties of record before the Property Tax Appeal Board are AMH 2015-1 Borrower LLC AT, the appellant, by attorney Michael R. Davies, of Ryan Law LLP, in Chicago, and the Will County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the Will County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,409
IMPR.: \$30,317
TOTAL: \$40,726

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Will County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and brick construction with 1,714 square feet of living area. The dwelling was constructed in 2000. Features of the home include a full basement, central air conditioning and a 380 square foot garage. The property has a 9,296 square foot site and is located in Steger, Crete Township, Will County.

The appellant's appeal is based on overvaluation. In support of this argument the appellant submitted limited evidence in Section IV – Recent Sale Data of the Residential Appeal petition disclosing the subject property was purchased in September 2013 from "Will County Sheriff" for a price of \$121,001. While the appellant was requested to provide additional information to complete the appeal, by letter dated August 10, 2017 by the Property Tax Appeal Board, the appeal was accepted and the board of review was simultaneously, but separately, notified of its

duty to respond to the appeal within 90 days. Based on this limited recent sale evidence, the appellant requested a reduction in the subject's assessment to reflect the 2013 purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$40,726. The subject's assessment reflects a market value of \$122,447 or \$71.44 per square foot of living area, land included, when using the 2016 three year average median level of assessment for Will County of 33.26% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment, the board of review submitted information on four comparable sales identified by the township assessor improved with two-story dwellings of brick and frame exterior construction ranging in size from 1,417 to 2,788 square feet of living area that were located within the subject's neighborhood code as assigned by the assessor. The dwellings were constructed between 1996 and 1998 with features that include a full or partial basement, one of which includes finished area, central air conditioning and a garage ranging in size from 390 to 462 square feet of building area. Three of the comparables also each have a fireplace. These properties sold from April 2014 to May 2015 for prices ranging from \$109,000 to \$175,000 or from \$62.77 to \$84.76 per square foot of living area, including land.

Based on the foregoing evidence and argument, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted evidence of the subject's 2013 sale price and four comparable sales to support their respective positions before the Property Tax Appeal Board.

The Board gave little weight to the subject's September 2013 sale due to the fact the sale did not occur as proximate in time to the assessment date at issue of January 1, 2016 as did the comparable sales in the record. In addition, there was no evidence presented by the appellant that the sale transaction had any of the elements of an arm's length transaction as there was no indication if the property sold between related parties; there was no indication whether the property was advertised or exposed on the open market prior to the sale; and/or there was no evidence whether the transaction occurred between a willing seller and a willing buyer. Furthermore, the fact the property was sold by "Will County Sheriff" suggests that duress may have been involved in the transaction.

The Board has also given reduced weight to board of review comparable sale #1 as this dwelling is substantially larger with 2,788 square feet of living area when compared to the subject dwelling containing 1,714 square feet of living area.

The Board finds the best evidence of market value in the record to be comparable sales #2, #3 and #4 submitted by the board of review. These comparables were similar to the subject in location, style, construction, size, features and/or age. These properties also sold more proximate in time to the assessment date at issue than the September 2013 sale of the subject property. The comparables sold from April 2014 to May 2015 for prices ranging from \$109,000 to \$127,000 or from \$72.43 to \$84.76 per square foot of living area, including land. The subject's assessment reflects a market value of \$122,447 or \$71.44 per square foot of living area, including land, which is within the range of the comparable sales in terms of overall value and below the range on a per-square-foot basis which is logical given the subject dwelling is slightly larger than each of these best comparable sales in the record. Accepted real estate valuation theory provides that all factors being equal, as the size of the property increases, the per unit value decreases. In contrast, as the size of a property decreases, the per unit value increases.

On this record, the Property Tax Appeal Board finds that the subject is not overvalued and no reduction in the assessment of the subject property is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
