

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jay Krupp  
DOCKET NO.: 16-03128.001-R-1  
PARCEL NO.: 15-32-309-037

The parties of record before the Property Tax Appeal Board are Jay Krupp, the appellant, by attorney Ronald Kingsley, of Lake County Real Estate Tax Appeal, LLC in Lake Forest; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$20,927  
**IMPR.:** \$26,801  
**TOTAL:** \$47,728

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a single-family townhouse of wood siding exterior construction with 861 square feet of living area. The dwelling was constructed in 1984. Features of the home include central air conditioning, fireplace and a 220 square foot attached garage. The property is located in the city of Buffalo Grove, Vernon Township, Lake County.

The taxpayer's appeal is based on overvaluation. In support of this argument, the appellant submitted information on four comparable sales located from .05 to .14 of a mile from the subject property. The comparables are described as single-family townhomes of wood siding exterior construction with either 960 or 1,119 square feet of living area. The dwellings were constructed in either 1984 or 1985. Features of the comparables include central air conditioning, one comparable has a fireplace and all have an attached garage with 220 square feet of building area. The comparables sold from January 2015 to April 2016 for prices ranging from \$142,000 to \$170,000 or from \$147.92 to \$154.17 per square foot of living area. Based on this evidence,

the appellant requested a reduction in the subject's total assessment to \$45,342, or \$157.99 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$47,728. The subject's assessment reflects a market value of \$143,932 or \$167.17 per square foot of living area including land, when applying the 2016 three-year average median level of assessment for Lake County of 33.16% as determined by the Illinois Department of Revenue.

In support of the subject's assessment, the board of review submitted information on four comparable sales located from .026 to .054 of a mile from the subject property. The comparables are improved with single-family townhomes of wood siding exterior construction with either 840 or 931 square feet of living area. The dwellings were constructed between 1983 and 1985. The comparables feature central air conditioning, one comparable has a fireplace and each comparable has an attached garage with 220 square feet of building area. The comparables sold from May 2015 to November 2016 for prices ranging from \$140,000 to \$169,000 or from \$150.38 to \$201.19 per square foot of living area. Based on this evidence, the board of review requested that the subject property's assessment be affirmed.

### **Conclusion of Law**

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the parties submitted 8 suggested sale comparables for consideration. The Board gave less weight to appellant's comparable sales #2 and #3 due to being larger in size dwellings when compared to the subject.

The Board finds the best evidence of market value to be appellant's comparable sales #1 and #4 and board of review comparable sales #1 through #4. The Board finds these comparables are most similar to the subject in location, dwelling size, age, design and features. These comparables sold for prices ranging from \$140,000 to \$169,000 or from \$147.92 to \$201.19 per square foot of living area. The subject's assessment reflects a market value of \$143,932 or \$167.17 per square foot of living area, which is within the range established by the best comparable sales in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds that the appellant did not demonstrate by a preponderance of the evidence that the subject was overvalued and, therefore, the subject's estimated market value as reflected by its assessment is supported. Based on this record, the Board finds that a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
