

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Sharon Marconi
DOCKET NO.: 16-03778.001-R-1
PARCEL NO.: 10-15-303-021

The parties of record before the Property Tax Appeal Board are Sharon Marconi, the appellant, by attorney Ronald Kingsley of Lake County Real Estate Tax Appeal, LLC in Lake Forest; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$30,373
IMPR.: \$137,097
TOTAL: \$167,470

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story residential duplex unit of brick exterior construction with 3,066 square feet of living area. The dwelling was constructed in 1994. Features of the home include a basement that is partially finished, central air conditioning, two fireplaces, four bathrooms and an attached garage with 565 square feet of building area. The property is located in Mundelein, Fremont Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on three comparable sales improved with two-story dwellings of brick exterior construction that range in size from 2,583 to 3,491 square feet of living area. The dwellings were built from 1993 to 2006. Each property has a basement with two having finished area, central air conditioning, one to three fireplaces and an attached garage ranging in size from 402 to 680 square feet of building area. Two of the comparables are located in the subject's

subdivision and comparable #3 is located 2.35 miles from the subject property. The sales occurred from May 2014 to April 2016 for prices ranging from \$325,000 to \$520,000 or from \$125.82 to \$167.89 per square foot of living area, including land. Based on this evidence the appellant requested the subject's assessment be reduced to \$159,416.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$167,470. The subject's assessment reflects a market value of \$505,036 or \$164.72 per square foot of living area, land included, when using the 2016 three-year average median level of assessment for Lake County of 33.16% as determined by the Illinois Department of Revenue.

In support of its contention of the correct assessment the board of review submitted information on three comparables sales improved with two-story residential duplex units of brick or wood siding exterior construction that range in size from 2,859 to 3,575 square feet of living area. The dwellings were built from 1993 to 2000. Each property has a basement that is partially finished, central air conditioning, two fireplaces and an attached garage ranging in size from 631 to 680 square feet of building area. Each property is located in the subject's subdivision within .201 miles of the subject property. The sales occurred from May 2014 to September 2015 for prices ranging from \$480,000 to \$550,000 or from \$148.95 to \$167.89 per square foot of living area, including land. Board of review sales #2 and #3 are the same properties as appellant's sales #2 and #1, respectively. Based on this evidence the board of review requested the assessment be sustained.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted four comparable sales to support their respective positions with two common sales. The Board gives less weight to appellant's sale #3 due to its differences from the subject property in location, age, size and features. The three remaining comparables, with two being submitted by both parties, are improved with duplexes located in the subject's complex having similar characteristics as the subject property. These most similar comparables sold for prices ranging from \$480,000 to \$550,000 or from \$148.95 to \$167.89 per square foot of living area, including land. The subject's assessment reflects a market value of \$505,036 or \$164.72 per square foot of living area, including land, which is within the range established by the best comparable sales in this record. The Board finds the subject's assessment is reflective of its fair cash value as of the assessment date at issue. Based on this evidence the Board finds a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
