

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: James Jeon
DOCKET NO.: 16-03784.001-R-1
PARCEL NO.: 10-33-301-011

The parties of record before the Property Tax Appeal Board are James Jeon, the appellant, by attorney Ronald Kingsley, of Lake County Real Estate Tax Appeal, LLC in Lake Forest; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$29,821
IMPR.: \$266,777
TOTAL: \$296,598

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick exterior construction with 6,295 square feet of living area. The dwelling was constructed in 2007. Features of the home include a full basement with finished area, central air conditioning, three fireplaces and a 997 square foot garage. The property has a 115,434 square foot site that backs up to a pond and is located in Mundelein, Fremont Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted information on three comparable sales located from 1.36 to 2.32 miles from the subject property. The comparables are described as two-story dwellings of wood siding or brick exterior construction ranging in size from 5,644 to 6,049 square feet of living area. The dwellings were constructed from 1993 to 2004. Features of each comparable include central air conditioning, one to six fireplaces and a garage ranging in size from 836 to 1,286 square feet of

building area. The comparables have sites ranging in size from 51,404 to 93,247 square feet of land area. The comparables sold from August 2014 to August 2015 for prices ranging from \$475,000 to \$775,000 or from \$84.03 to \$133.77 per square foot of living area, including land. Based on this evidence, the appellant requested a reduction in the subject's total assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$296,598. The subject's assessment reflects a market value of \$894,445 or \$142.09 per square foot of living area, land included, when using the 2016 three year average median level of assessment for Lake County of 33.16% as determined by the Illinois Department of Revenue.

In support of the subject's assessment, the board of review submitted information on four comparable sales located from 1.36 to 1.97 miles from the subject property. The comparables are described as two-story dwellings of brick or wood siding exterior construction ranging in size from 5,284 to 7,100 square feet of living area. The dwellings were constructed from 1991 to 2004. Each comparable features a basement with finished area, central air conditioning, one to four fireplaces and a garage ranging in size from 810 to 1,100 square feet of building area. The comparables have sites ranging in size from 59,272 to 128,344 square feet of land area. The comparables sold from May 2015 to August 2016 for prices ranging from \$755,000 to \$1,400,000 or from \$133.77 to \$246.01 per square foot of living area, including land. Based on this evidence, the board of review requested that the subject property's assessment be confirmed.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains seven comparable sales for consideration. The Board gave less weight to appellant's comparable #1 that sold in August 2014 which is dated and less likely to be indicative of market value as of the January 1, 2016 assessment date. The Board finds the remaining comparables submitted by the parties sold proximate in time to the assessment date at issue and have varying degrees of similarity to the subject. The properties sold from May 2015 to August 2016 for prices ranging from \$755,000 to \$1,400,000 or from \$128.12 to \$246.01 per square foot of living area, including land. The subject's assessment reflects a market value of \$894,445 or \$142.09 per square foot of living area, including land which falls within the range established by the most recent comparable sales in the record. After considering necessary adjustments to the comparables for differences when compared to the subject, the Board finds the subject's estimated market value as reflected by its assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
