

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Praveen Velagapudi
DOCKET NO.: 16-04013.001-R-1
PARCEL NO.: 14-14-202-014

The parties of record before the Property Tax Appeal Board are Praveen Velagapudi, the appellant, by attorney Andrew J. Rukavina, of The Tax Appeal Company in Mundelein; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$72,753
IMPR.: \$192,741
TOTAL: \$265,494

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick exterior construction with 4,047 square feet of living area. The dwelling was constructed in 2013. Features of the home include an unfinished basement, central air conditioning, a fireplace and a 775-square foot attached garage. The property has a 42,253-square foot site and is located in Lake Zurich, Elia Township, Lake County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument the appellant submitted an appraisal estimating the subject property had a market value of \$675,000 as of January 1, 2016. The appraisal was prepared by Joan L. Fay, a certified residential real estate appraiser. In estimating the market value of the subject property, the appraiser developed the sales comparison approach to value.

Under the sales comparison approach, the appraiser analyzed four comparable sales located from .11 to .26 of a mile from the subject property. The comparables consist of two-story dwellings that are four years old. The dwellings had features with varying degrees of similarity when compared to the subject. The dwellings range in size from 3,956 to 4,213 square feet of living area and are situated on sites that range in size from 39,988 to 42,035 square feet of land area. The comparables sold from August 2012 to May 2013 for prices ranging from \$643,789 to \$732,856 or from \$159.27 to \$184.83 per square foot of living area including land. The appraiser made adjustments to each comparable for differences from the subject property to arrive at adjusted prices ranging from \$640,789 to \$722,856. The appellant requested the total assessment be reduced to \$224,977 which would reflect the appraised value.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the subject's final assessment of \$265,494. The subject's assessment reflects an estimated market value of \$800,645 or \$197.84 per square foot of living area including land when applying Lake County's 2016 three-year average median level of assessment of 33.16% as determined by the Illinois Department of Revenue. 86 Ill.Admin.Code §1910.50(c)(1).

In support of the subject's assessment, the board of review submitted information on four comparable sales located within 3.42 miles from the subject property. The comparables consist of two-story dwellings that were built from 1990 to 2005. The dwellings had features with varying degrees of similarity when compared to the subject. The dwellings range in size from 4,735 to 5,345 square feet of living area and are situated on sites that range in size from 40,027 to 110,738 square feet of land area. The comparables sold from May to October of 2015 for prices ranging from \$900,000 to \$1,005,000 or from \$186.80 to \$196.41 per square foot of living area including land. The board of review submission included property record cards for the subject and its four comparable sales.

The board of review submission also included a memo asserting that the appraiser's comparable sales sold in 2012 or 2013, which is "approximately 31 to 40 months prior to the assessment date of January 1, 2016. The appraiser did not adjust for these substantial time differences nor provide any related commentary." Based on this evidence, the board of review requested confirmation of the subject's assessment.

In written rebuttal, counsel for the appellant critiqued the board of review's submission. Included in the submission was an area map which indicated the location of the appellant's appraisal comparable sales and the board of review comparable sales and the Multiple Listing Service sheets for the board of review's comparable sales.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The record contains an appraisal submitted by the appellant and information on four comparable sales provided by the board of review. The Board gives the final opinion of value found in the appraisal little weight due to lack of adjustments for date of sale in relation to a 2016 market value date. The Board will consider the raw sales data.

The Board gave less weight to the appellant's appraisal comparable sales due to their 2012 or 2013 sale dates which are not proximate in time for the January 1, 2016 assessment date at issue. The Board also gave little weight to the board of review's comparable #3 due to its larger site size and older age when compared to the subject property. Furthermore, the Board gave less weight to the board of review's comparable #4 due to its larger site size and distant location when compared to the subject property. The Board finds the remaining two comparable sales submitted by the board of review sold more proximate in time to the subject's assessment date and are more similar to the subject in location, age, land area, dwelling size, design, exterior construction and features. They sold in August and October of 2015 for \$900,000 or \$930,000 and \$186.80 or \$196.41 per square foot of living area including land. The subject's assessment reflects an estimated market value of \$800,645 or \$197.84 per square foot of living area including land, falls below the most similar comparable sales contained in the record on a total market value basis and slightly above on a per square foot basis. Based on this evidence the Board finds the subject is not overvalued and a reduction in the assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
