

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Ying Zhang  
DOCKET NO.: 16-04036.001-R-1  
PARCEL NO.: 16-32-312-017

The parties of record before the Property Tax Appeal Board are Ying Zhang, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$49,475  
**IMPR.:** \$187,841  
**TOTAL:** \$237,316

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of brick exterior construction with 3,642 square feet of living area. The dwelling was constructed in 1993. Features of the home include a partial unfinished basement, central air conditioning, a fireplace and a 638 square foot attached garage. The property is located in Deerfield, West Deerfield Township, Lake County.

The appellant contends assessment inequity as the basis of the appeal. The appellant did not contest the land assessment. In support of this argument, the appellant submitted information on three equity comparables located .22 to .49 of a mile from the subject. The comparables are improved with two-story dwellings of frame or brick exterior construction ranging in size from 3,237 to 3,938 square feet of living area. The dwellings were constructed in 1998 or 1999. Features of each comparable include an unfinished basement, central air conditioning, a fireplace and a garage ranging in size from 462 to 702 square feet of building area. The comparables have

improvement assessments ranging from \$146,004 to \$178,452 or from \$45.10 to \$45.57 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$237,316. The subject property has an improvement assessment of \$187,841 or \$51.58 per square foot of living area.

In rebuttal to the appellant's evidence, the board of review submitted a map referencing appellant's comparables backing up to Lake Cook Road contending they suffer from locational obsolescence.

In support of its contention of the correct assessment, the board of review submitted six equity comparables located .077 to .25 of a mile from the subject property. The comparables consist of two-story dwellings of brick or frame exterior construction ranging in size from 3,459 to 3,803 square feet of living area. The dwellings were constructed from 1986 to 1999. The comparables have basements, two of which have finished areas. Each comparable has central air conditioning, a fireplace and a garage ranging in size from 420 to 792 square feet of building area. The comparables have improvement assessments ranging from \$177,094 to \$197,992 or from \$50.87 to \$52.89 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and no reduction in the subject's assessment is warranted.

The parties submitted nine equity comparables for the Board's consideration. According to the unrefuted evidence submitted by board of review, the Board finds the appellant's comparables were given less weight due to their inferior locations. The Board also gave less weight to board of review comparables #4 and #6 due their superior finished basements.

The Board finds the best evidence of assessment equity to be the remaining four comparables submitted by board of review which are more similar in location, dwelling size, design, age and/or most features when compared to the subject. These comparables had improvement assessments of \$194,152 to \$197,992 or from \$52.06 to \$52.89 per square foot of living area. The subject has an improvement assessment of \$187,841 or \$51.58 per square foot of living area, which falls below the range established by the more similar comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported.

Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and no reduction in the subject's assessment is justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence presented.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
