

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Anderson
DOCKET NO.: 16-04427.001-R-1
PARCEL NO.: 16-32-201-028

The parties of record before the Property Tax Appeal Board are John Anderson, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$68,606
IMPR.: \$340,900
TOTAL: \$409,506

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame exterior construction with 4,560 square feet of living area. The dwelling was constructed in 2008. Features of the home include a full basement with finished area, central air conditioning, two fireplaces and a 942 square foot garage. The property is located in Deerfield, West Deerfield Township, Lake County.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument the appellant submitted information on three equity comparables located within .95 of a mile from the subject property. The comparables consist of two-story dwellings of brick exterior construction ranging in size from 4,153 to 4,308 square feet of living area. The dwellings were constructed from 2003 to 2005. Each comparable has an unfinished basement, central air conditioning, a fireplace and an attached garage ranging in size from 543 to 619 square feet of building area. The comparables

have improvement assessments that range from \$224,624 to \$291,531 or from \$52.14 to \$70.20 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's building assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$409,506. The subject property has an improvement assessment of \$340,900 or \$74.76 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on three equity comparables located within .859 of a mile from the subject. The comparables consist of a one-story and two, two-story dwellings of brick or frame exterior construction ranging in size from 4,405 to 4,482 square feet of living area. The dwellings were built from 2001 to 2007. Each comparable has a full basement, two of which have finished area. The comparables each have central air conditioning, a fireplace and an attached garage ranging in size from 849 to 862 square feet of building area. The comparables have improvement assessments that range from \$320,966 to \$344,903 or from \$71.71 to \$78.30 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted six suggested equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables as all of these properties have unfinished basements. The Board also gave less weight to board of review comparable #1 due to its dissimilar one-story design when compared to the subject two-story dwelling.

The Board finds the best evidence of assessment equity to be board of review comparables #2 and #3. These two comparables are most similar in location, dwelling size, design, age and features when compared to the subject. These comparables have improvement assessments of \$71.71 and \$74.34 per square foot of living area. The subject property has an improvement assessment of \$74.76 per square foot of living area, which is greater than the best comparables in this record. The subject's slightly higher improvement assessment appears justified given its newer age, larger garage and additional fireplace as compared to the best comparables. No reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
