

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William Kohn
DOCKET NO.: 16-04511.001-R-1
PARCEL NO.: 16-36-404-002

The parties of record before the Property Tax Appeal Board are William Kohn, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$85,658
IMPR.: \$128,993
TOTAL: \$214,651

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick exterior construction with 2,522 square feet of living area. The dwelling was constructed in 1939. Features of the home include a full basement with finished area, central air conditioning and a 180 square foot garage. The property has a 10,068 square foot site and is located in Highland Park, Moraine Township, Lake County.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of the inequity argument, the appellant submitted information on three equity comparables located within .23 of mile from the subject property. The comparables were improved with two-story dwellings of brick or frame exterior construction ranging in size from 2,314 to 2,782 square feet of living area. The dwellings were constructed from 1927 to 1949. Each comparable has a basement with finished area, central air conditioning,

one or two fireplaces and an attached garage with 171 or 420 square feet of building area. The comparables have improvement assessments that range from \$95,382 to \$124,185 or from \$41.02 to \$44.64 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's building assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$214,651. The subject property has an improvement assessment of \$128,993 or \$51.15 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on eight equity comparables located within .324 of a mile from the subject. The comparables were improved with two-story dwellings of brick exterior construction ranging in size from 2,305 to 2,660 square feet of living area. The dwellings were built from 1937 to 1947. Each comparable has a basement, five of which have finished area. Seven comparables have central air conditioning. The comparables each have one or two fireplaces and an attached garage ranging in size from 253 to 567 square feet of building area. The comparables have improvement assessments ranging from \$117,357 to \$142,065 or from \$49.30 to \$53.41 per square feet of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and no reduction in the subject's assessment is warranted.

The parties submitted 11 suggested equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #2 and #3, along with board of review comparables #7 and #8 due to their dissimilar ages when compared to the subject. The Board also gave less weight to board of review comparables #2, #4 and #6 due to their inferior unfinished basements. Furthermore, board of review comparable #2 is inferior to the subject in its lack of central air conditioning.

The Board finds the best evidence of assessment equity to be the appellant's comparable #1 and board of review comparables #1, #3 and #5. These four comparables are most similar in location, dwelling size, design, age and features when compared to the subject. These comparables had improvement assessments ranging from \$41.02 to \$52.06 per square foot of living area. The subject's improvement assessment of \$51.15 per square foot of living area falls within the range on a per square foot basis as established by the most similar comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and no reduction in the subject's assessment is justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence presented.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
