

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jamie Bay
DOCKET NO.: 16-04513.001-R-1
PARCEL NO.: 17-31-302-109

The parties of record before the Property Tax Appeal Board are Jamie Bay, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$119,714
IMPR.: \$189,728
TOTAL: \$309,442

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick exterior construction with 3,388 square feet of living area. The dwelling was constructed in 1951. Features of the home include a partial basement with finished area, central air conditioning, three fireplaces and a 437 garage. The property has a 15,550 square foot site and is located in Highland Park, Moraine Township, Lake County.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument the appellant submitted information on three equity comparables that are located within .15 of a mile from the subject property. The comparables consist of two-story dwellings of brick or stone exterior construction that range in size from 3,215 to 3,414 square feet of living area. The dwellings were constructed from 1938 to 1946. Each comparable has a basement, two of which have finished area. The comparables each

have central air conditioning, one or two fireplaces and an attached garage ranging in size from 361 to 546 square feet of building area. One comparable has an in-ground swimming pool. The comparables have improvement assessments ranging from \$151,548 to \$166,053 or from \$47.14 to \$48.99 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$309,442. The subject property has an improvement assessment of \$189,728 or \$56.00 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within .415 of a mile from the subject. The comparables were improved with two-story dwellings of brick or stone exterior construction ranging in size from 3,242 to 3,693 square feet of living area. The dwellings were built from 1942 to 1958. Each comparable has a partial basement, three of which have finished area. The comparables each have central air conditioning, one or two fireplaces and an attached garage ranging in size from 338 to 462 square feet of building area. The comparables have improvement assessments that range from \$175,706 to \$212,787 or from \$54.08 to \$57.62 per square feet of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and no reduction in the subject's assessment is warranted.

The parties submitted seven suggested equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparable #1 and board of review comparable #4 due to their inferior unfinished basements. The Board also gave less weight to the appellant's comparable #3 due to its older dwelling age when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparable #2 and board of review comparables #1, #2 and #3. These four comparables are similar in location, dwelling size, design, age and features when compared to the subject. These comparables had improvement assessments that range from \$164,417 to \$212,787 or from \$48.99 to \$57.62 per square foot of living area. The subject's improvement assessment of \$189,728 or \$56.00 per square foot of living area falls within the range established by the most similar comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and no reduction in the subject's assessment is justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence presented.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
