

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Jeanette Sala  
DOCKET NO.: 16-04642.001-R-1  
PARCEL NO.: 16-32-102-028

The parties of record before the Property Tax Appeal Board are Jeanette Sala, the appellant, by attorney Robert Rosenfeld of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$76,568  
**IMPR.:** \$139,644  
**TOTAL:** \$216,212

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of brick and frame exterior construction with 2,982 square feet of living area. The dwelling was constructed in 1971. Features of the home include an unfinished basement, central air conditioning, a fireplace, a 528 square foot garage, a 1,524 square foot enclosed frame porch and a 576 square foot in-ground swimming pool. The property has a 31,202 square foot site and is located in Deerfield, West Deerfield Township, Lake County.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of the inequity argument the appellant submitted information on three assessment comparables located in the same neighborhood assigned by the township assessor as the subject property. The comparables were improved with two-story dwellings of brick exterior construction ranging in size from 2,663 to 2,855 square feet of living

area. The dwellings were constructed in 1964 or 1966. Each comparable has a basement, one of which has finished area. The comparables have central air conditioning, a fireplace and a garage ranging in size from 420 to 483 square feet of building area. The comparables have improvement assessments ranging from \$106,073 to \$112,812 or from \$39.16 to \$39.83 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's building assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$216,212. The subject property has an improvement assessment of \$139,644 or \$46.83 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted information on four equity comparables located in the same neighborhood assigned by the township assessor as the subject property. The comparables were improved with two-story dwellings of frame or brick and frame exterior construction ranging in size from 2,502 to 2,796 square feet of living area. The dwellings were built in 1973 or 1976. Each comparable has a basement, one of which has finished area. The comparables have central air conditioning, a fireplace and a garage ranging in size from 441 to 528 square feet of building area. The comparables have improvement assessments ranging from \$117,518 to \$131,924 or from \$46.04 to \$47.63 per square feet of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and no reduction in the subject's assessment is warranted.

The parties submitted seven suggested equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparable #3 and board of review comparable #4 due to their superior finished basement foundations when compared to the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #2 along with board of review comparables #1, #2 and #3. These five comparables are similar in location, dwelling size, design, age and some features when compared to the subject. These comparables had improvement assessments that range from \$107,842 to \$130,649 or from \$39.16 to \$46.97 per square foot of living area. The subject property has an improvement assessment of \$139,644 or \$46.83 per square foot of living area and falls within the range on a per square foot basis established by the most similar comparables in this record. The subject is slightly above the range in total improvement assessment which appears to be justified due to its superior features that include a 1,524 square foot enclosed frame porch and a 576 square foot in-ground swimming pool. Therefore, no reduction in the subject's assessment is justified. Based

on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and no reduction in the subject's assessment is justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence presented.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
