

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Barbara Dorr
DOCKET NO.: 16-04695.001-R-1
PARCEL NO.: 14-28-204-002

The parties of record before the Property Tax Appeal Board are Barbara Dorr, the appellant, by attorney Ryan Schaeffges of the Law Office of Ryan Schaeffges, P.C. in Wheeling; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$41,053
IMPR.: \$174,925
TOTAL: \$215,978

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of brick exterior construction with 4,014 square feet of living area. The dwelling was constructed in 1990. Features of the home include a full unfinished basement, central air conditioning, three fireplaces and a 1,140 square foot garage. The property has a 43,351 square foot site and is located in Kildeer, Ela Township, Lake County.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of the inequity argument, the appellant submitted information on three equity comparables located within three blocks of the subject property. The comparables were improved with two-story dwellings of brick exterior construction ranging in size from 3,528 to 3,906 square feet of living area. The dwellings were 29 to 37 years old. Each comparable has a basement, central air conditioning, one or two fireplaces and a garage ranging

in size from 704 to 800 square feet of building area. The comparables have improvement assessments ranging from \$147,903 to \$160,632 or from \$41.12 to \$42.21 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's building assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$215,978. The subject property has an improvement assessment of \$174,925 or \$43.58 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within .466 of a mile from the subject. The comparables were improved with two-story dwellings of brick or frame exterior construction ranging in size from 3,886 to 4,232 square feet of living area. The dwellings were built from 1987 to 1990. Each comparable has an unfinished basement, central air conditioning, one to three fireplaces and a garage ranging in size from 759 to 962 square feet of building area. Two comparables have either a 465 or 630 square foot in-ground swimming pool. The comparables have improvement assessments ranging from \$171,752 to \$186,648 or from \$43.22 to \$44.67 per square feet of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and no reduction in the subject's assessment is warranted.

The parties submitted seven suggested equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparable #3 due to its older dwelling age when compared to the subject, along with board of review comparables #1 and #2 as they both have an in-ground swimming pool unlike the subject.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #2, along with board of review comparables #3 and #4. These four comparables are similar in location, dwelling size, design, age and features when compared to the subject. These comparables have improvement assessments ranging from \$147,903 to \$186,648 or from \$41.92 to \$44.10 per square foot of living area. The subject property has an improvement assessment of \$174,925 or \$43.58 per square foot of living area, which falls within the range established by the most similar comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the evidence demonstrates the subject's improvement assessment is supported. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and no reduction in the subject's assessment is justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence presented.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
