

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Alan Olker
DOCKET NO.: 16-04911.001-R-1
PARCEL NO.: 05-15-406-057

The parties of record before the Property Tax Appeal Board are Alan Olker, the appellant, by Jessica Hill-Magiera, Attorney at Law in Lake Zurich; and the Lake County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Lake** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$27,042
IMPR.: \$103,209
TOTAL: \$130,251

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Lake County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of wood siding exterior construction with 3,332 square feet of living area. The dwelling was constructed in 1996. Features of the home include a partial basement with finished area, central air conditioning, one fireplace and a 744 square foot garage. The property has a 61,855 square foot site and is located in Fox Lane, Grant Township, Lake County.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted limited information on eight equity comparables located within .24 of a mile of the subject. The comparables are improved with two-story dwellings ranging in size from 3,197 to 3,334 square feet of living area. The dwellings were constructed from 2004 to 2006 and each features a basement. The comparables have improvement assessments ranging from \$84,527 to \$96,248 or from \$25.99 to \$28.97 per square

foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$130,251. The subject property has an improvement assessment of \$103,209 or \$30.98 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted eight equity comparables located within .366 of a mile of the subject property. Board of review comparable #2 was submitted by the appellant as comparable #8. The eight equity comparables are described as four, two-story or four, part one-story and part two-story dwellings of wood siding exterior construction ranging in size from 2,876 to 3,322 square feet of living area. The dwellings were constructed from 1991 to 2004. The comparables each have a basement, with four having finished area; central air conditioning; and garage ranging in size from 576 to 1,005 square feet of building area. Seven comparables have one fireplace each. The comparables have improvement assessments ranging from \$94,045 to \$108,239 or from \$28.97 to \$37.64 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

In rebuttal, the appellant's attorney critiqued the board of review's submission noting style differences between comparables #3, #5, #7 and #8 and the subject.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and no reduction in the subject's assessment is warranted.

The Board gives less weight to the appellants' evidence as they did not provide information about the dwellings' features or amenities other than size and basement area, which would assist the Property Tax Appeal Board in conducting a meaningful analysis to determine their comparability or similarity to the property under appeal. In order for the Board to properly evaluate the comparables, it is necessary to have the salient characteristics associated with the dwellings so as to be able to determine the degree of comparability and possible adjustments needed to the properties to make them more equivalent to the subject property. Conversely, the board of review analysis included salient facts about the comparables including a copy of the property record card for each comparable, which adds credibility to its evidence.

The Board finds the best evidence of assessment equity to be the board of review comparables which includes one comparable common to both parties. These comparables are similar to the subject in location, age, dwelling size, design, and features. These comparables have improvement assessments that ranged from \$94,045 to \$108,239 or from \$28.97 to \$37.64 per

square foot of living area. The subject's improvement assessment of \$103,209 or \$30.98 per square foot of living area falls within the range established by the best comparables in this record.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which exists on the basis of the evidence.

Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
