

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Stanley Balzekas
DOCKET NO.: 16-05360.001-R-1
PARCEL NO.: 09-01-113-005

The parties of record before the Property Tax Appeal Board are Stanley Balzekas, the appellant, by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$77,790
IMPR.: \$70,470
TOTAL: \$148,260

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of brick and frame exterior construction with 1,686 square feet of living area. The dwelling was built in 1961. Features of the home include a full basement that is 75% finished, central air conditioning, four fireplaces and a 510-square foot garage. The property has a 9,775-square foot site and is located in Hinsdale, Downers Grove Township, DuPage County.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted limited information¹ on three equity comparables located within the same neighborhood code as the subject property. The comparables are improved with one, part one-story and part two-story and two, 1.0-story dwellings that were constructed from

¹ Descriptive information for the appellant's comparables was contained within the board of review's property record cards and grid analysis.

1950 to 1969. All of the comparables have partial unfinished basements, central air conditioning, one to two fireplaces and garages that range in size from 528 to 744 square feet of building area. The dwellings range in size from 2,130 to 3,753 square feet of living area and have improvement assessments ranging from \$87,450 to \$146,380 or from \$39.00 to \$41.05 per square foot of living area. The appellant requested the total assessment be reduced to \$145,027.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$148,260. The subject property has an improvement assessment of \$70,470 or \$41.80 per square foot of living area. In support of its contention of the correct assessment the board of review submitted property record cards and a grid analysis on three equity comparables located in the same neighborhood code as the subject property. The comparables are improved with one-story dwellings that were constructed in 1964 or 1965. The comparables have full or partial basements that are 25% or 50% finished, one fireplace, and garages that range in size from 400 to 528 square feet of building area. Two of the comparables have central air conditioning. The dwellings range in size from 1,539 to 1,656 square feet of living area and have improvement assessments ranging from \$99,180 to \$103,940 or from \$60.83 to \$66.46 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of six suggested equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to their larger dwelling size and inferior partial unfinished basements when compared to the subject property. The Board finds the board of review comparables were more similar to the subject in location, age, dwelling size, design and/or other features. These comparables had improvement assessments ranging from \$60.83 to \$66.46 per square foot of living area. The subject's improvement assessment of \$41.80 per square foot of living area falls significantly below the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
