

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Carlo Rossi
DOCKET NO.: 16-05374.001-R-1
PARCEL NO.: 09-07-210-014

The parties of record before the Property Tax Appeal Board are Carlo Rossi, the appellant, by attorney Brian S. Maher, of Weis, DuBrock, Doody & Maher in Chicago; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$54,720
IMPR.: \$235,910
TOTAL: \$290,630

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a part two-story and part one-story dwelling of frame exterior construction with 3,587 square feet of living area. The dwelling was constructed in 2014. Features of the home include a full finished basement, central air conditioning, a fireplace and a 492 square foot garage. The property has a 7,630-square foot site and is located in Downers Grove, Downers Grove Township, DuPage County.

The appellant contends assessment inequity as the basis of the appeal. In support of the inequity claim, the appellant submitted three assessment comparables located within the same neighborhood code as the subject property. The comparables are improved with one, part two-story, part one-story and part three-story dwelling and two, part two-story and part one-story dwellings of frame exterior construction that were constructed from 2003 to 2009. The

comparables¹ have full unfinished basements, central air conditioning, one or two fireplaces and garages that range in size from 387 to 506 square feet of building area. The dwellings range in size from 3,275 to 3,680 square feet of living area and have improvement assessments ranging from \$200,860 to \$219,540 or from \$59.65 to \$61.42 per square foot of living area. Based on this evidence, the appellant requested the total assessment be reduced to \$272,809.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$290,630. The subject property has an improvement assessment of \$235,910 or \$65.77 per square foot of living area.

In support of its contention of the correct assessment the board of review submitted three assessment comparables located within the same neighborhood code as the subject property. The comparables are improved with part two-story and part-one story dwellings of frame exterior construction that were constructed in 2013 or 2015. The comparables have full or partial finished basements, central air conditioning, one to three fireplaces and garages that range in size from 512 to 876 square feet of building area. The dwellings range in size from 3,204 to 3,841 square feet of living area and have improvement assessments ranging from \$220,020 to \$262,760 or from \$65.55 to \$68.67 per square foot of living area. The board of review submission included property record cards for the subject, its three comparables and the appellant's three comparables.

The board of review submission also included a map and a memo asserting that the appellant's comparables #1 and #3 received a 10% economic obsolescence. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted information on a total of six assessment comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to their inferior unfinished basements. The Board finds the board of review's comparables are similar when compared to the subject in location, age, dwelling size, design and other features. These comparables had improvement assessments that ranged from \$65.55 to \$68.67 per square foot of living area. The subject's improvement assessment of \$65.77 per square foot of living area falls within the range established by the best comparables in this record. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the

subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
