

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: AMER HOMES 4 & RENT PROP LLC
DOCKET NO.: 16-05579.001-R-1
PARCEL NO.: 18-22-181-033

The parties of record before the Property Tax Appeal Board are AMER HOMES 4 & RENT PROP LLC, the appellant, by attorney Michael R. Davies, of Ryan Law LLP, in Chicago, and the McHenry County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **no change** in the assessment of the property as established by the **McHenry** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$ 4,118
IMPR.: \$44,188
TOTAL: \$48,306

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the McHenry County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame construction with 1,937 square feet of living area. The dwelling was constructed in 2005. Features of the home include central air conditioning and a 419 square foot garage.¹ The property has a 1,158 square foot site and is located in Lake in the Hills, Grafton Township, McHenry County.

The appellant contends overvaluation as the basis of the appeal. In support of this argument, the appellant submitted a list of nine comparable sales along with information that the subject property was purchased in September 2014 for a price of \$99,000 (identified as sale #2 in the listing). The appellant did not file this appeal as a "recent sale" and did not complete Section IV

¹ Appellant's counsel provided limited information regarding the features of the subject property beyond its age and above-grade living area. Descriptive details concerning the subject were provided by the board of review with a property record card and are reflected in this decision.

of the Residential Appeal petition or provide the required documentation related to the recent sale of the subject property.

The nine comparable properties identified as #1 and #3 through #10 sold from March 2013 to January 2016 for prices ranging from \$106,151 to \$142,500. The appellant provided no substantive descriptive information about the comparables other than that the dwellings were built between 2000 and 2006 and range in size from 1,702 to 1,943 square feet of above grade living area.

Based on this evidence, the appellant requested the subject's assessment be reduced to \$33,000 which would reflect a market value of approximately \$99,000 or the subject's October 2014 purchase price.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$48,306. The subject's assessment reflects a market value of \$145,107 or \$74.91 per square foot of living area, land included, when using the 2016 three year average median level of assessment for McHenry County of 33.29% as determined by the Illinois Department of Revenue.

In response to the appeal, the board of review asserted the appellant's recent sales support the subject's assessment. Furthermore, the board of review asserted that based upon comparable sales gathered by the township assessor the subject property is "under-assessed." In the grid analysis prepared by the township assessor, the October 2014 sale of the subject property for \$99,000 was reported as a "court-order sale" and the subject's property record card indicates the property transferred as a result of a Sheriff's Deed.

In support of its contention of the correct assessment, the board of review submitted information on four comparable sales each of which is located in the same neighborhood code assigned by the assessor as the subject property. The comparables consist of two-story dwellings of frame exterior construction. The homes were built between 2004 and 2006 and range in size from 1,825 to 1,943 square feet of living area. Two comparables each have a fireplace and each comparable has a garage of either 419 or 420 square feet of building area. No data was provided concerning central air conditioning. The comparables sold between July 2015 and April 2016 for prices ranging from \$158,500 to \$164,500 or from \$81.83 to \$90.14 per square foot of living area, including land.

While the board of review noted the subject appeared to be under-valued, the board of review did not request a change in the subject's assessment.

Conclusion of Law

The appellant contends the market value of the subject property is not accurately reflected in its assessed valuation. When market value is the basis of the appeal the value of the property must be proved by a preponderance of the evidence. 86 Ill.Admin.Code §1910.63(e). Proof of market value may consist of an appraisal of the subject property, a recent sale, comparable sales or construction costs. 86 Ill.Admin.Code §1910.65(c). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties provided a total of thirteen comparable sales to support their respective positions before the Property Tax Appeal Board along with the 2014 sale of the subject property. The Board finds that little weight shall be given to the appellant's evidence as it contained no substantive descriptive information about the dwellings to allow the Property Tax Appeal Board to conduct a meaningful comparative analysis of the comparable sales as compared to the subject property. Additionally, six of the appellant's nine comparables sold in 2013 and 2014, not as proximate in time to the assessment date as the sales provided by the board of review. To the extent that the appellant has relied upon the 2014 sale of the subject property, the Board finds this sale shall be given little weight. The assertion is that the subject's sale was a court-ordered transaction and thus not an actual arm's-length sale transaction was not rebutted on this record.

The Board finds the best evidence of market value to be the board of review comparable sales. These comparables are similar to the subject in location, age, exterior construction, design, size and most features. These comparables sold between July 2015 and April 2016 for prices ranging from \$158,500 to \$164,500 or from \$81.83 to \$90.14 per square foot of living area, including land. The subject's assessment reflects a market value of \$145,107 or \$74.91 per square foot of living area, including land, which is below the range established by the best comparable sales in this record in terms of overall value and on a per-square-foot basis. As noted by the McHenry County Board of Review, based on the best market value evidence in the record, the subject property may be under-assessed.

On this record, the Board finds no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
