

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Barry Craig  
DOCKET NO.: 16-06615.001-R-1  
PARCEL NO.: 09-01-312-011

The parties of record before the Property Tax Appeal Board are Barry Craig, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$111,530  
**IMPR.:** \$421,460  
**TOTAL:** \$532,990

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a part two-story, part three-story and part one-story dwelling of frame and brick exterior construction with 4,203 square feet of living area. The dwelling was constructed in 2002. Features of the home include a full finished basement, central air conditioning, four fireplaces and a 772 square foot garage. The property has a 12,953 square foot site and is located in Hinsdale, Downers Grove Township, DuPage County.

The appellant contends assessment inequity as the basis of the appeal. The appellant did not contest the land assessment. In support of this argument, the appellant submitted information on three equity comparables located in the same neighborhood code as the subject as defined by the township assessor. The comparables are improved with one, part two-story, part one-story and part three-story dwelling and two, part two-story, part three-story and part one-story dwellings of frame or brick exterior construction ranging in size from 3,972 to 4,776 square feet of living

area. The dwellings were constructed from 2000 to 2002. The comparables have basements, two of which are partially finished. Each comparable has central air conditioning, three fireplaces and a garage ranging in size from 440 to 864 square feet of building area.<sup>1</sup> The comparables have improvement assessments ranging from \$370,590 to \$432,780 or from \$86.59 to \$93.30 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$532,990. The subject property has an improvement assessment of \$421,460 or \$100.28 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted four equity comparables located in the same neighborhood code as the subject as defined by the township assessor. The comparables consist of part two-story, part three-story and part one-story dwellings of frame, brick, or frame and brick exterior construction ranging in size from 3,914 to 4,243 square feet of living area. The dwellings were constructed in 2007 or 2008. The comparables feature full finished basements, central air conditioning, three or four fireplaces and a garage ranging in size from 480 to 776 square feet of building area. The comparables have improvement assessments ranging from \$390,450 to \$432,580 or from \$99.76 to \$106.69 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and no reduction in the subject's assessment is warranted.

The parties submitted seven equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #1 and #2 based on their larger dwelling sizes when compared to the subject. In addition, comparable #1 has an unfinished basement inferior to the subject.

The Board finds the best evidence of assessment equity to be appellant's comparable #3 and the board of review comparables. These four comparables are most similar to the subject in location, age, design, dwelling size and most features. The comparables had improvement assessments ranging from \$370,590 to \$432,580 or from \$93.30 and \$106.69 per square foot of living area. The subject has an improvement assessment of \$421,460 or \$100.28 per square foot

<sup>1</sup> The appellants' grid analysis was void of some pertinent descriptive data, which was drawn from the evidence provided by the board of review.

of living area, which falls within the range established by the most similar comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported.

Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and no reduction in the subject's assessment is justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence presented.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
