

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Manish Puri  
DOCKET NO.: 16-06644.001-R-1  
PARCEL NO.: 09-13-308-003

The parties of record before the Property Tax Appeal Board are Manish Puri, the appellant, by attorney Sreeram Natarajan, of Natarajan Worstell LLC in Chicago; and the DuPage County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **DuPage** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$168,670  
**IMPR.:** \$238,590  
**TOTAL:** \$407,260

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the DuPage County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a part two-story, part one-story dwelling of brick exterior construction with 3,932 square feet of living area. The dwelling was constructed in 1997. Features of the home include an unfinished basement, central air conditioning, a fireplace and a 741 square foot garage. The property has an 15,100 square foot site and is located in Burr Ridge, Downers Grove Township, DuPage County.

The appellant contends assessment inequity as the basis of the appeal. The appellant did not contest the land assessment. In support of this argument, the appellant submitted information on five equity comparables located outside the subject neighborhood as defined by the township assessor. The comparables are improved with a one-story dwelling and four, part two-story, part one-story dwellings of brick exterior construction ranging in size from 3,607 to 4,704 square feet of living area. The dwellings were constructed from 1990 or 1997. The comparables have

basements, two of which have finished area. Four comparables have central air conditioning. Each comparable features two or three fireplaces and a garage ranging in size from 736 to 1,000 square feet of building area.<sup>1</sup> The comparables have improvement assessments ranging from \$153,730 to \$212,020 or from \$34.45 to \$47.92 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$407,260. The subject property has an improvement assessment of \$238,590 or \$60.68 per square foot of living area.

In support of its contention of the correct assessment, the board of review submitted four equity comparables located in the same neighborhood as the subject as defined by the township assessor. The comparables consist of part two-story, part one-story dwellings of brick exterior construction ranging in size from 3,549 to 4,117 square feet of living area. The dwellings were constructed from 1996 to 1998. The comparables have basements, three of which have finished area. Three comparables have central air conditioning. Each comparable has one to three fireplaces and a garage ranging in size from 663 to 792 square feet of building area. The comparables have improvement assessments ranging from \$224,610 to \$266,880 or from \$63.29 to \$66.32 per square foot of living area.

The board of review noted that all of the appellant's comparables are located in an inferior neighborhood. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and no reduction in the subject's assessment is warranted.

The parties submitted nine equity comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to their location in an inferior neighborhood when compared to the subject.

The Board finds the best evidence of assessment equity to be board of review comparables. These four comparables are most similar to the subject in location, dwelling size, age and/or most features. The comparables had improvement assessments ranging from \$224,610 to

---

<sup>1</sup> The appellant submitted only four equity comparables on Section V of the assessment grid analysis but included five equity comparables on an additional comparable grid analysis. The Board will analyze the five equity comparables. However, the appellants' grid analysis was void of some pertinent descriptive data, which was drawn from the evidence provided by the board of review.

\$266,880 or from \$63.29 to \$66.32 per square foot of living area. The subject has an improvement assessment of \$238,590 or \$60.68 per square foot of living area, which is well supported by the best comparables in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is justified.

Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and no reduction in the subject's assessment is justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. The requirement is satisfied if the intent is evident to adjust the burden with a reasonable degree of uniformity and if such is the effect of the statute enacted by the General Assembly establishing the method of assessing real property in its general operation. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which appears to exist on the basis of the evidence presented.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
