

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Harriette Lutz
DOCKET NO.: 16-20082.001-R-1
PARCEL NO.: 01-12-406-012-0000

The parties of record before the Property Tax Appeal Board are Harriette Lutz, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$12,434
IMPR.: \$71,901
TOTAL: \$84,335

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 4,334 square feet of living area. The dwelling is 21 years old. Features of the home include a full basement with finished area, central air conditioning, two fireplaces, and a three-car attached garage. The property has a 45,215 square foot site and is located in Inverness, Barrington Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument, the appellant submitted information on three equity comparables located within the same neighborhood code as the subject property. The comparables were improved with dwellings of frame, masonry, or frame and masonry exterior construction that ranged in size from 4,386 to 4,648 square feet of living area. The

dwellings range in age from 22 to 32 years old. Features had varying degrees of similarity when compared to the subject property. The comparables had improvement assessments that ranged from \$38,022 to \$60,526 or from \$8.67 to \$13.72 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$47,578 or \$10.98 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$84,335. The subject property has an improvement assessment of \$71,901 or \$16.59 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables located within the same neighborhood code, block, street, and/or subdivision area as the subject property. The comparables were improved with two-story dwellings of masonry exterior construction that ranged in size from 4,496 to 4,685 square feet of living area. The dwellings range in age from 18 to 24 years old. Features had varying degrees of similarity when compared to the subject property. The comparables had improvement assessments that ranged from \$74,724 to \$86,357 or from \$16.62 to \$18.43 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the board of review comparables. The Board gave greater weight to these comparables because they are located within the same neighborhood code, same street, and same block or subdivision area as the subject. In addition, these comparables are similar to the subject in design, exterior construction, age, dwelling size and most features. These comparables had improvement assessments that ranged from \$74,724 to \$86,357 or \$16.62 to \$18.43 per square foot of living area. The subject's improvement assessment of \$71,901 or \$16.59 per square foot of living area falls slightly below the range established by the best comparables in this record, which is justified considering its smaller dwelling size. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
