

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Robert Frazer
DOCKET NO.: 16-20201.001-R-1
PARCEL NO.: 11-07-120-014-0000

The parties of record before the Property Tax Appeal Board are Robert Frazer, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$9,982
IMPR.: \$55,767
TOTAL: \$65,749

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story multi-family dwelling of frame exterior construction with 2,932 square feet of living area. The dwelling is 125 years old. Features include a full basement that is finished, a fireplace and a four-car detached garage. The property has a 7,130 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-11 apartment building under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends improvement assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with similar style multi-family dwellings of frame or masonry exterior construction containing from 3,100 to 3,416 square feet of living area. The comparables range in age from

118 to 128 years old. The comparables have improvement assessments ranging from \$50,353 to \$60,437 or from \$16.24 to \$17.69 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$50,401 or \$17.19 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$65,749. The subject property has an improvement assessment of \$55,767 or \$19.02 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code and .25 of a mile from the subject property. The comparables are improved with similar multi-family dwellings of masonry or stucco exterior construction containing from 2,654 to 3,105 square feet of living area. The comparables range in age from 94 to 130 years old. The comparables have improvement assessments ranging from \$51,974 to \$65,098 or from \$19.27 to \$20.97 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the appellant's comparables #1 and #2 along with the board of review comparables #2 and #4. These comparables are most similar to the subject in location, design, exterior construction, age, dwelling size and features. These comparables have improvement assessments ranging from \$50,353 to \$55,818 or from \$16.24 to \$19.58 per square foot of living area. The subject's improvement assessment of \$55,767 or \$19.02 per square foot of living area falls within the range established by the most similar comparables contained in this record. The Board gave less weight to both parties' remaining comparables due to their considerably newer ages or significantly larger dwelling size when compared to the subject property. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
