

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Florian Chevrollier
DOCKET NO.: 16-20204.001-R-1
PARCEL NO.: 11-07-109-009-0000

The parties of record before the Property Tax Appeal Board are Florian Chevrollier, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,850
IMPR.: \$58,307
TOTAL: \$69,157

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry exterior construction with 2,336 square feet of living area. The dwelling is 91 years old. Features of the home include a full unfinished basement, a fireplace, and a two-car detached garage. The property has a 7,750 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with similar style dwellings of masonry exterior construction that range in size from 2,294 to 2,780 square feet of living area. The dwellings

range in age from 100 to 106 years old and have full unfinished basements. The comparables have improvement assessments that range from \$51,917 to \$57,687 or from \$20.75 and \$22.63 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$51,392 or \$22.00 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$69,157. The subject property has an improvement assessment of \$58,307 or \$24.96 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code, same street, same block and/or .25 of a mile from the subject property. The comparables are improved with similar style dwellings of masonry exterior construction that range in size from 2,217 to 2,368 square feet of living area. The dwellings range in age from 88 to 93 years old and have full basements, one of which has finished area. The comparables have improvement assessments that range from \$57,775 to \$60,517 or from \$25.21 to \$26.06 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be appellant's comparables #2 and #3, as well as the board of review comparables #1, #2, and #4. These comparables are most similar to the subject in location, design, exterior construction, age, dwelling size, foundation and features. These comparables have improvement assessments that range from \$51,917 to \$59,879 or from \$22.63 to \$26.06 per square foot of living area. The subject's improvement assessment of \$58,307 or \$24.96 per square foot of living area falls within the range established by the best comparables in this record. The Board gave less weight to the appellant's comparable #1 due to its considerably larger dwelling size and the board of review comparable #3 due to its finished basement area when compared to the subject's smaller dwelling size and unfinished basement. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
