

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: William Benz  
DOCKET NO.: 16-20215.001-R-1  
PARCEL NO.: 10-11-322-012-0000

The parties of record before the Property Tax Appeal Board are William Benz, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$13,692  
**IMPR.:** \$52,413  
**TOTAL:** \$66,105

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of masonry exterior construction with 2,596 square feet of living area. The dwelling is 88 years old. Features of the home include a full unfinished basement, a fireplace, and a one-car attached garage. The property has an 11,410 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with similar style dwellings of masonry or frame and masonry exterior construction that range in size from 2,870 to 3,050 square feet of living area.

The dwellings range in age from 76 to 115 years old. The comparables have improvement assessments that range from \$53,072 to \$55,232 or from \$18.07 to \$18.49 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$47,299 or \$18.22 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$66,105. The subject property has an improvement assessment of \$52,413 or \$20.19 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code and same block as the subject property. The comparables are improved with similar style dwellings of masonry exterior construction that range in size from 2,267 to 2,564 square feet of living area. The dwellings range in age from 86 to 90 years old. The comparables have improvement assessments that range from \$52,049 to \$59,467 or from \$20.30 to \$26.23 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board finds the best evidence of assessment equity to be the board of review comparables. These comparables are closer to the subject's age and most similar to the subject in location, design, exterior construction, dwelling size, foundation, and some features. Two of the comparables are also identical in age to the subject property. These comparables have improvement assessments that range from \$52,049 to \$59,467 or from \$20.30 to \$26.23 per square foot of living area. The subject's improvement assessment of \$52,413 or \$20.19 per square foot of living area is within the range established by the best comparables contained in this record with its total improvement assessment and slightly below on a per-square-foot basis. The Board gave less weight to the appellant's comparables due to their older ages and/or considerably larger dwelling sizes when compared to the subject property. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
