

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Lewis Bradford
DOCKET NO.: 16-20216.001-R-1
PARCEL NO.: 10-13-413-025-0000

The parties of record before the Property Tax Appeal Board are Lewis Bradford, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **A Reduction** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$753
IMPR.:	\$15,785
TOTAL:	\$16,538

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a one-story dwelling of frame and masonry exterior construction with 637 square feet of living area. The dwelling is 54 years old and has a slab foundation. The property has an 886 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-95 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument the appellant submitted information on three equity comparables that are located within the same neighborhood code and street as the subject property. The comparables are improved with similar style dwellings of masonry exterior construction that contain either 1,281 or 1,285 square feet of living area. The dwellings are each 54 years old. Unlike the subject, the comparables have partial basements with

unfinished areas and central air conditioning, and one comparable has a two-car detached garage. The comparables have improvement assessments ranging from \$21,234 to \$21,576 or from \$16.58 to \$16.79 per square foot of living area. Based on this evidence, the appellant requested that the improvement assessment be reduced to \$10,606 or \$16.65 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$16,901. The subject property has an improvement assessment of \$16,148 or \$25.35 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on three equity comparables that are located within the same neighborhood code, same block and street as the subject property. The comparables are improved with identical one-story dwellings of frame and masonry exterior construction with 637 square feet of living area. The dwellings are 54 years old and have a slab foundation, like the subject. The comparables have improvement assessments ranging from \$15,785 to \$16,082 or either \$24.78 or \$25.25 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the evidence in the record supports a reduction to the subject's assessment.

The parties submitted six suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparables due to their considerably larger dwelling sizes and partial basements when compared to the subject's smaller dwelling size and inferior slab foundation.

The Board finds the best evidence of assessment equity to be the board of review comparables that are located within the same neighborhood code, same block and street as the subject property. These comparables received greater weight because they are also identical to the subject in design, exterior construction, age, dwelling size, foundation, and features. These comparables have improvement assessments ranging from \$15,785 to \$16,082 or either \$24.78 or \$25.25 per square foot of living area. The subject's improvement assessment of \$16,148 or \$25.35 per square foot of living area is above the best comparables contained in this record. Based on this record, the Board finds a reduction in the subject's assessment is justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
