

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Thomas Jednorowicz  
DOCKET NO.: 16-20228.001-R-1  
PARCEL NO.: 05-28-305-033-0000

The parties of record before the Property Tax Appeal Board are Thomas Jednorowicz, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$10,980  
**IMPR.:** \$75,189  
**TOTAL:** \$86,169

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property is improved with a 2-story frame and masonry dwelling containing 2,815 square feet of living area. The dwelling is 76 years old and features a partial unfinished basement, central air conditioning, a fireplace and a 1-car garage. The subject is situated on a 6,100 square foot site located in Wilmette, New Trier Township, Cook County. The subject property is classified as a Class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity and contention of law as the bases of the appeal. The appellant contested both the improvement assessment of the subject as well as the land assessment. In support of the inequity argument the appellant submitted information on five assessment comparables. They consist of 2-story, Class 2-06 dwellings having the same neighborhood code as the subject. They range in size from 2,749 to 2,880 square feet of living

area and range in age from 87 to 128 years old. The comparables each have basements, one with finished area. Three feature central air conditioning, one has a fireplace and four have 2-car garages. The comparables have improvement assessments ranging from \$58,897 to \$72,731 or from \$20.92 to \$25.77 per square foot of living area. The comparables are situated on sites that range in size from 7,000 to 12,375 square feet of land area. They have land assessments ranging from \$12,600 to \$22,275 or \$1.80 per square foot of land area.

The appellant's attorney also submitted a brief requesting "the 2016 assessment on the subject be revised to reflect a building assessed value of \$24.36 per square foot (median of the comparables cited), at the Illinois Department of Revenue's 2014 sales-ratio study median level of assessment of 8.16%, indicates a revised assessment of \$64,915." Based on this evidence, the appellant requested the subject's 2016 improvement assessment be reduced to \$55,955 or \$19.88 per square foot of living area and the 2016 land assessment be reduced to \$8,960 or \$1.47 per square foot of land area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$86,169. The subject property has an improvement assessment of \$75,189 or \$26.71 per square foot of living area and a land assessment of \$10,980 or \$1.80 per square foot of land area.

In support of the subject's assessment, the board of review submitted information on four 2-story Class 2-06 comparables having the same neighborhood code as the subject. The dwellings range in size from 2,533 to 2,826 square feet of living area and range in age from 63 to 87 years old. The comparables have basements, three with finished areas, central air conditioning and 1 or 2 fireplaces each. Three feature 2 or 2½-car garages. They have improvement assessments ranging from \$68,138 to \$84,354 or from \$26.90 to \$29.85 per square foot of living area. The comparables are situated on sites that range in size from 6,100 to 8,540 square feet of land area. They have land assessments ranging from \$10,980 to \$15,372 or \$1.80 per square foot of land area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine equity comparables for the Board's consideration. With regard to the improvement assessments, the Board gave less weight to the appellant's comparables #1 through #4 and to board of review comparables #2, #3 and #4 due to their dissimilar dwelling ages and/or dissimilar finished basements when compared to the subject's unfinished basement. The Board finds appellant's comparable #5 and board of review comparable #1 are most similar to the

subject in location, age, style, dwelling size and most features when compared to the subject. These comparables have improvement assessments of \$72,731 and \$81,379 or \$25.77 and \$29.40 per square foot of living area, respectively. The subject property has an improvement assessment of \$75,189 or \$26.71 per square foot of living area which is between the most similar comparables on an overall basis as well as a per square foot basis.

With regard to the land assessment, the Board further finds the land assessed values of each of the nine equity comparables is \$1.80 per square foot of land area. The subject's land assessment of \$1.80 per square foot of land area is the same as the nine comparables. After considering adjustments to these comparables for differences to the subject, the Board finds the subject's improvement assessment and land assessment are both supported. Thus, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject was inequitably assessed and no reduction in the subject's assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
