

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Renzhan Yang  
DOCKET NO.: 16-20363.001-R-1  
PARCEL NO.: 01-28-416-011-0000

The parties of record before the Property Tax Appeal Board are Renzhan Yang, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$4,607  
**IMPR.:** \$75,151  
**TOTAL:** \$79,758

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property is improved with a two-story dwelling of frame and masonry construction with 3,846 square feet of living area. The dwelling is approximately nine years old. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a three-car garage. The property has a 16,756 square-foot site and is located in South Barrington, Barrington Township, Cook County. The subject is classified as a class 2-08 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables with the same assigned neighborhood and classification codes as the subject. The comparables are improved with two-story dwellings of frame or frame and masonry construction. The dwellings are either nine or eighteen years old. The appellant's grid analysis indicates the comparables have features

that are similar to the subject in varying degrees. The comparable dwellings range in size from 3,906 to 4,137 square feet of living area, and their improvement assessments range from \$64,971 to \$74,192 or from \$16.63 to \$18.14 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$64,651 or \$16.81 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$79,758 was disclosed. The subject property has an improvement assessment of \$75,151 or \$19.54 per square foot of living area. The board of review presented descriptions and assessment information on four suggested comparable properties with the same assigned neighborhood and classification codes as the subject. The comparables were described as being located one-quarter mile from the subject property. The comparables are improved with two-story dwellings of frame and masonry construction. Each dwelling is nine years old. The appellant's grid analysis indicates the comparables have features that are similar to the subject in varying degrees. The comparable dwellings range in size from 3,846 to 3,898 square feet of living area and their improvement assessments range from \$75,343 to \$81,273 or from \$19.59 to \$20.85 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

### **Conclusion of Law**

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented assessment data on a total of nine suggested comparables. The Board finds the appellant's comparables #1 through #4 were older than the subject and received reduced weight in the Board's analysis. The Board finds the best evidence of assessment equity to be the appellant's comparable #5 and the comparables submitted by the board of review. The Board finds these comparables were the same age as the subject and were also similar to the subject in location, design, exterior construction, age, living area and features. These comparables had improvement assessments that ranged from \$74,192 to \$81,273 or from \$18.14 to \$20.85 per square foot of living area. The subject's improvement assessment of \$75,151 or \$19.54 per square foot of living area falls within the range established by the best comparables in this record. Based on this record, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
