

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Moolailpeedikail Chacko
DOCKET NO.: 16-20383.001-R-1
PARCEL NO.: 05-33-116-096-0000

The parties of record before the Property Tax Appeal Board are Moolailpeedikail Chacko, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,820
IMPR.: \$63,304
TOTAL: \$72,124

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of masonry construction. The dwelling is approximately 24 years old and has 3,151 square feet of living area. Features of the home include a full unfinished basement, central air conditioning, a fireplace and a two-car garage. The property has an 8,400 square-foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument, the appellant submitted information on five equity comparables with the same neighborhood and classification codes as the subject. The comparables are improved with two-story dwellings of frame, masonry or frame and masonry construction. The dwellings are from 49 to 57 years old and contain from 3,036 to 3,210 square feet of living area. Two comparables

have full unfinished basements, and three comparables have finished basements, either full or partial. The comparables have improvement assessments that range from \$51,724 to \$57,587 or from \$17.04 to \$18.34 per square foot of living area. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment to \$56,686 or \$17.99 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's final assessment of \$72,124 was disclosed. The subject property has an improvement assessment of \$63,304 or \$20.09 per square foot of living area. The board of review presented descriptions and assessment information on four comparable properties. The comparables have the same neighborhood and classification codes as the subject and were described as being located on the same block or a quarter-mile from the subject property. The comparables are improved with two-story dwellings of masonry construction. The dwellings are either 16 or 24 years old and contain from 3,498 to 3,579 square feet of living area. The comparables have full basements, with two having finished areas; central air conditioning; one or two fireplaces; and garages that range from two-car to three-car. The comparable properties have improvement assessments that range from \$73,948 to \$80,781 or from \$21.05 to \$22.78 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties presented assessment data on a total of nine suggested comparables. The Board finds the appellant's comparables were significantly older than the subject and received reduced weight in the Board's analysis. The Board finds the best evidence of assessment equity to be the comparables submitted by the board of review. The Board finds these comparables, despite being somewhat larger than the subject, were very similar in location, story height, masonry construction, age and most features. These comparables had improvement assessments that ranged from \$73,948 to \$80,781 or from \$21.05 to \$22.78 per square foot of living area. The subject's improvement assessment of \$63,304 or \$20.09 per square foot of living area falls below the range established by the best comparables in this record. After considering adjustments to the comparables for differences from the subject, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
