

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Gary Schuneman  
DOCKET NO.: 16-20441.001-R-1  
PARCEL NO.: 10-11-414-009-0000

The parties of record before the Property Tax Appeal Board are Gary Schuneman, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$12,187  
**IMPR.:** \$52,417  
**TOTAL:** \$64,604

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of stucco exterior construction with 2,148 square feet of living area. The dwelling is 93 years old. Features of the home include a full unfinished basement, a fireplace and a two-car detached garage. The property has a 9,750 square foot site and is located in Evanston, Evanston Township, Cook County. The subject is classified as a class 2-05 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends contention of law<sup>1</sup> and improvement assessment inequity as the bases of the appeal. The subject's land assessment was not contested. In support of the improvement assessment inequity argument, the appellant submitted information on five equity comparables

<sup>1</sup> The bases for the appeal was contention of law and assessment equity; however, counsel's legal brief is the same as the inequity argument; uniformity of assessment.

that are located within the same neighborhood code as the subject. The comparables are improved with two-story dwellings of frame or stucco exterior construction containing from 2,046 to 2,184 square feet of living area. The dwellings range in age from 93 to 127 years old and have partial or full unfinished basements. One comparable has central air conditioning. Two comparables have a fireplace. Four comparables have a one-car or a two-car garage. The comparables have improvement assessments that range from \$46,871 to \$49,124 or from \$21.54 to \$23.45 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$47,900 or \$22.30 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$64,604. The subject property has an improvement assessment of \$52,417 or \$24.40 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on three equity comparables that are located within the same neighborhood code as the subject. The comparables are improved with two-story dwellings of stucco exterior construction containing from 1,820 to 2,241 square feet of living area. The dwellings range in age from 85 to 92 years old and have partial or full basements, one of which has finished area. Each comparable has a fireplace. Two comparables have central air conditioning and a two-car garage. The comparables have improvement assessments that range from \$48,765 to \$60,029 or either \$25.38 or \$26.79 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight comparable properties for the Board's consideration. The Board gave less weight to the appellant's comparables #1, #2, and #4 as well as the board of review comparable #1 due to their considerably older ages, finished basement, and/or lack of garage when compared to the subject.

The Board finds the best comparables to be the appellant's comparables #3 and #5 as well as the board of review comparables #2 and #3. The Board gave greater weight to these comparables because they identical or closer in age to the subject. In addition, these comparables are most similar to the subject in location, design, exterior construction, dwelling size, foundation and most features. These comparables have improvement assessments that range from \$22.30 to \$26.79 per square foot of living area. The subject's improvement assessment of \$24.40 per square foot of living area falls within the range established by the best comparables contained in this record. After considering adjustments to the comparables when compared to the subject, the

Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which exists on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
