

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Vangelis Economou
DOCKET NO.: 16-20470.001-R-1
PARCEL NO.: 05-32-201-089-0000

The parties of record before the Property Tax Appeal Board are Vangelis Economou, the appellant, by attorney Timothy E. Moran, of Schmidt Salzman & Moran, Ltd. in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$10,074
IMPR.: \$66,871
TOTAL: \$76,945

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of stucco exterior construction with 3,502 square feet of living area. The dwelling is 55 years old. Features of the home include a partial basement with finished area, central air conditioning, a fireplace, and a two-car attached garage. The property has a 9,595 square foot site¹ and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

¹ The appellant's attorney argued the subject's site contains 7,844 square feet of land area as depicted by a Sidwell plat map with a lot size of 148' x 106', which equals 15,688 square feet of land area. The Board finds the appellant's attorney did not submit a Sidwell map of the subject site depicting the 7,844 square feet of land area.

The appellant contends contention of law² and assessment inequity as the bases of the appeal. In support of the inequity argument, the appellant submitted information on four equity comparables, four of which are located within the same neighborhood code as the subject. The comparables are improved with two-story dwellings of frame and masonry exterior construction that range in size from 3,325 to 3,694 square feet of living area. The dwellings range in age from 49 to 62 years old. Four comparables have partial unfinished basements, four comparables have one or two fireplaces, each comparable has central air conditioning, and each comparable has a 2-car or a 2.5-car garage. The comparables have improvement assessments ranging from \$55,423 to \$66,711 or from \$16.28 to \$18.15 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$62,965 or \$17.98 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$76,945. The subject property has an improvement assessment of \$66,871 or \$19.10 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with two-story dwellings of stucco or frame and masonry exterior construction that range in size from 3,014 to 3,150 square feet of living area. The dwellings range in age from 51 to 61 years old. Three comparables have partial or full basements, one of which has finished area. Each comparable has central air conditioning, a fireplace, and a two-car garage. The comparables have improvement assessments ranging from \$62,608 to \$64,982 or from \$20.23 to \$20.77 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted nine suggested comparables for the Board's consideration. The Board gave less weight to the appellant's comparables #1 and #5 as well as the board of review comparable #3 due to their location in a different neighborhood code or lack of a basement when compared to the subject property.

The Board finds the best evidence of assessment equity to be the appellant's comparables #2, #3, and #4 as well as the board of review comparables #1, #2, and #4. These comparables are most similar to the subject in location, design, exterior construction, age, dwelling size, and most

² The bases for the appeal was contention of law and assessment equity; however, counsel's legal brief is the same as the inequity argument; uniformity of assessment.

features. These comparables have improvement assessments that range from \$17.78 to \$20.76 per square foot of living area. The subject's improvement assessment of \$19.10 per square foot of living area falls within the range established by the best comparables contained in this record. After considering adjustments to the comparables for differences when compared to the subject, the Board finds the subject's improvement assessment is supported. Based on this record the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

The constitutional provision for uniformity of taxation and valuation does not require mathematical equality. A practical uniformity, rather than an absolute one, is the test. Apex Motor Fuel Co. v. Barrett, 20 Ill.2d 395 (1960). Although the comparables presented by the parties disclosed that the properties located in the same area are not assessed at identical levels, all that the constitution requires is a practical uniformity, which exists on the basis of the evidence.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
