

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Barry Veit
DOCKET NO.: 16-20543.001-R-1
PARCEL NO.: 05-31-101-142-0000

The parties of record before the Property Tax Appeal Board are Barry Veit, the appellant, by attorney Spiro Zarkos, of Verros Berkshire in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$8,685
IMPR.: \$28,095
TOTAL: \$36,780

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a multilevel frame and masonry dwelling containing 1,590 square feet of living area. The dwelling is 59 years old and features a partial basement with finished area, central air conditioning and a 2-car garage. The subject is located in Glenview, New Trier Township, Cook County. It is classified as a class 2-34 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on four multi-level, class 2-34 comparables having the same neighborhood code as the subject. The comparables are located a distance of 0.5 of a mile to 1.1 miles from the subject, with one located in a different city than the subject. The comparables range in size from 1,392 to 1,859 square feet of living area and range in age from 56 to 70 years old. They feature partial basements with finished areas and one fireplace each. Three comparables have central air conditioning and three have 1 or 2-car garages. The

comparables have improvement assessments ranging from \$18,718 to \$25,235 or from \$10.07 to \$16.17 per square foot of living area. The appellant requested the subject's 2016 improvement assessment be reduced to \$22,302 or \$14.03 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$36,780. The subject property has an improvement assessment of \$28,095 or \$17.67 per square foot of living area.

In support of the assessment the board of review submitted information on four multi-level, class 2-34 comparables having the same neighborhood code as the subject and located on the same block as the subject. The comparables range in size from 1,410 to 1,450 square feet of living area and range in age from 50 to 59 years old. All have partial basements with finished areas, central air conditioning and 1 or 2-car garages. Three have 1 fireplace each. The comparables have improvement assessments ranging from \$24,985 to \$30,236 or from \$17.57 to \$20.97 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight comparables for the Board's consideration. The Board gives less weight to the appellant's comparable #1 due to its larger dwelling size when compared to the subject. The Board also gives less weight to appellant's comparables #2, #3 and #4 due to their distances from the subject of a mile or more and/or being in a different city than the subject. The Board finds all four board of review comparables are most similar to the subject in location, style, age, dwelling size, and most features. These comparables have improvement assessments ranging from \$24,985 to \$30,236 or from \$17.57 to \$20.97 per square foot of living area. The subject property has an improvement assessment of \$28,095 or \$17.67 per square foot of living area which is within the range established by the most similar comparables in the record. After considering adjustments to these comparables for differences to the subject, the Board finds the subject's assessment is supported. Thus, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and no reduction in the subject's improvement assessment is warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
