

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: John Kotis
DOCKET NO.: 16-20552.001-R-1
PARCEL NO.: 01-13-103-005-0000

The parties of record before the Property Tax Appeal Board are John Kotis, the appellant, by attorney Peter D. Verros, of Verros Berkshire in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$11,424
IMPR.: \$67,626
TOTAL: \$79,050

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property is improved with a 2-story frame and masonry dwelling containing 3,778 square feet of living area. The dwelling is 32 years old and features a full unfinished basement, central air conditioning, 2 fireplaces and a 3-car garage. The subject is located in Inverness, Barrington Township, Cook County. It is classified as a class 2-78 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. In support of this argument the appellant submitted information on four two-story, class 2-78 comparables having the same neighborhood code as the subject. The comparables are located a distance of 3.7 miles to 4.8 miles from the subject and are in a different city than the subject. The comparables range in size from 3,140 to 3,703 square feet of living area and range in age from 28 to 32 years old. They feature basements, one with finished area, central air conditioning, one fireplace each and

3-car garages. The comparables have improvement assessments ranging from \$32,998 to \$62,558 or from \$10.51 to \$16.89 per square foot of living area. The appellant requested the subject's 2016 improvement assessment be reduced to \$51,915 or \$13.74 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$79,050. The subject property has an improvement assessment of \$67,626 or \$17.90 per square foot of living area.

In support of the assessment the board of review submitted information on four two-story, class 2-78 comparables having the same neighborhood code as the subject. One comparable is located on the same block as the subject, one is located within .25 of a mile from the subject and one is located in a different city than the subject. The comparables range in size from 3,664 to 3,756 square feet of living area and range in age from 27 to 32 years old. All have basements, one with finished area, central air conditioning, 1-3 fireplaces and 3 or 4-car garages. The comparables have improvement assessments ranging from \$68,222 to \$76,431 or from \$18.30 to \$20.86 per square foot of living area. Based on this evidence, the board of review requested confirmation of the subject's assessment.

Conclusion of Law

The taxpayer contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted a total of eight comparables for the Board's consideration. The Board gives less weight to the appellant's comparables and to board of review comparable #4 due to their dissimilar finished basements as compared to the subject's unfinished basement and/or their location in a different city than the subject. The Board finds board of review comparables #1, #2 and #3 are most similar to the subject in location, age, style, dwelling size and most features. The comparables have improvement assessments ranging from \$68,222 to \$76,431 or from \$18.30 to \$20.86 per square foot of living area. The subject property has an improvement assessment of \$67,626 or \$17.90 per square foot of living area which is below the range established by the most similar comparables in the record. Based on this evidence the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's improvement assessment based on inequity is not warranted.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
