

**FINAL ADMINISTRATIVE DECISION
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: James Graham
DOCKET NO.: 16-20568.001-R-1
PARCEL NO.: 05-33-400-017-0000

The parties of record before the Property Tax Appeal Board are James Graham, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

LAND: \$12,757
IMPR.: \$61,712
TOTAL: \$74,469

Subject only to the State multiplier as applicable.

Statement of Jurisdiction

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

Findings of Fact

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 2,604 square feet of living area. The dwelling is 90 years old. Features of the home include a partial basement that is finished, central air conditioning, two fireplaces, and a two-car detached garage. The property has a 12,150 square foot site and is located in Wilmette, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with dwellings of frame exterior construction that range in size from 2,352 to 3,049 square feet of living area. The dwellings range in age from 68

to 108 years old and have full unfinished basements. One comparable has central air conditioning. Two comparables have one or two fireplaces. Each comparable has a one-car or a two-car garage. The comparables have improvement assessments that range from \$48,152 to \$62,623 or from \$20.47 to \$21.06 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$53,877 or \$20.69 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$74,469. The subject property has an improvement assessment of \$61,712 or \$23.70 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on four equity comparables that are located within the same neighborhood code and same block as the subject property. The board of review's comparable #1 is the same property as their comparable #3. The comparables are improved with dwellings of frame and masonry exterior construction that range in size from 2,023 to 2,362 square feet of living area. The dwellings are 74 or 75 years old and have full basements, three of which have finished areas. Three comparables have central air conditioning. Each comparable has two fireplaces and a one-car garage. The comparables have improvement assessments that range from \$48,226 to \$59,475 or from \$23.74 to \$25.18 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

Conclusion of Law

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The Board recognizes from the seven comparables submitted by both parties, the board of review comparables #1 and #3 are the same property. The Board finds none of the comparables are particularly similar to the subject in age, dwelling size, foundation, or features. Both parties' comparables have improvement assessments ranging from \$48,152 to \$62,623 or from \$20.47 to \$25.18 per square foot of living area. The subject's improvement assessment of \$61,712 or \$23.70 per square foot of living area is within the range established by both parties' comparables. After considering adjustments and differences in both parties' comparables, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
