

**FINAL ADMINISTRATIVE DECISION  
ILLINOIS PROPERTY TAX APPEAL BOARD**

APPELLANT: Marcia Paley  
DOCKET NO.: 16-20589.001-R-1  
PARCEL NO.: 05-06-300-026-0000

The parties of record before the Property Tax Appeal Board are Marcia Paley, the appellant, by attorney Robert Rosenfeld, of Robert H. Rosenfeld and Associates, LLC in Chicago; and the Cook County Board of Review.

Based on the facts and exhibits presented in this matter, the Property Tax Appeal Board hereby finds **No Change** in the assessment of the property as established by the **Cook** County Board of Review is warranted. The correct assessed valuation of the property is:

**LAND:** \$18,086  
**IMPR.:** \$53,333  
**TOTAL:** \$71,419

Subject only to the State multiplier as applicable.

**Statement of Jurisdiction**

The appellant timely filed the appeal from a decision of the Cook County Board of Review pursuant to section 16-160 of the Property Tax Code (35 ILCS 200/16-160) challenging the assessment for the 2016 tax year. The Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of the appeal.

**Findings of Fact**

The subject property consists of a two-story dwelling of frame and masonry exterior construction with 2,331 square feet of living area. The dwelling is 67 years old. Features of the home include a full basement with a finished area, central air conditioning, two fireplaces, and a one-car attached garage. The property has a 12,919 square foot site and is located in Glencoe, New Trier Township, Cook County. The subject is classified as a class 2-06 property under the Cook County Real Property Assessment Classification Ordinance.

The appellant contends assessment inequity as the basis of the appeal. The subject's land assessment was not contested. In support of this argument, the appellant submitted information on three equity comparables that are located within the same neighborhood code as the subject property. The comparables are improved with similar style dwellings of frame and masonry exterior construction that range in size from 2,378 to 2,792 square feet of living area. The

dwellings range in age from 65 to 87 years old and have partial or full unfinished basements. Two comparables have central air conditioning, and two comparables have one or two fireplaces. Each comparable has a two-car garage. The comparables have improvement assessments that range from \$48,878 to \$57,889 or from \$19.28 to \$20.73 per square foot of living area. Based on this evidence, the appellant requested that the subject's improvement assessment be reduced to \$47,063 or \$20.19 per square foot of living area.

The board of review submitted its "Board of Review Notes on Appeal" disclosing the total assessment for the subject of \$71,419. The subject property has an improvement assessment of \$53,333 or \$22.88 per square foot of living area. In support of its contention of the correct assessment, the board of review submitted information on one equity comparable that is located within the same neighborhood code and subdivision area as the subject property. The comparable is improved with a similar two-story dwelling of frame and masonry exterior construction with 2,602 square feet of living area. The dwelling is 70 years old and has a partial basement with finished area. The comparable has central air conditioning, two fireplaces and a one-car garage. The comparable has an improvement assessment of \$60,767 or \$23.35 per square foot of living area. Based on this evidence, the board of review requested that the assessment be confirmed.

### **Conclusion of Law**

The appellant contends assessment inequity as the basis of the appeal. When unequal treatment in the assessment process is the basis of the appeal, the inequity of the assessments must be proved by clear and convincing evidence. 86 Ill.Admin.Code §1910.63(e). Proof of unequal treatment in the assessment process should consist of documentation of the assessments for the assessment year in question of not less than three comparable properties showing the similarity, proximity and lack of distinguishing characteristics of the assessment comparables to the subject property. 86 Ill.Admin.Code §1910.65(b). The Board finds the appellant did not meet this burden of proof and a reduction in the subject's assessment is not warranted.

The parties submitted four suggested comparables for the Board's consideration. Both parties comparables are similar to the subject in location, design, exterior construction, age, dwelling size and some features. Both parties comparables have improvement assessments ranging from \$48,878 to \$60,767 or from \$19.28 to \$23.35 per square foot of living area. The subject's improvement assessment of \$53,333 or \$22.88 per square foot of living area falls within the range established by both parties' comparables. After considering adjustments and differences in both parties' comparables, the Board finds the appellant did not demonstrate with clear and convincing evidence that the subject's improvement was inequitably assessed and a reduction in the subject's assessment is not justified.

This is a final administrative decision of the Property Tax Appeal Board which is subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code. Pursuant to Section 1910.50(d) of the rules of the Property Tax Appeal Board (86 Ill.Admin.Code §1910.50(d)) the proceeding before the Property Tax Appeal Board is terminated when the decision is rendered. The Property Tax Appeal Board does not require any motion or request for reconsideration.
